#### **Many Commitments** Trimmed, but Average Steady

NEW YORK, Feb. 11.-(A)-The stock market Thursday gave a relatively good account of itself notwithstanding wide-scale trimming of commitments in preparation for Friday's holiday on which the country's major securities and commodities exchange will recess.

Large blocks of low-priced utilities and motors again enlivened the proceedings and made the five-hour volume one of the largest for more than a year. Many new two-year highs also were in evidence.

The Associated Press average of 60 stocks was unchanged at 44 .-5, the top mark since January 14, 1941, established Wednesday. It was another broad market, 879 Individual stocks being traded. Of these, 389 were up and 490 down or unchanged. Transfers totaled 1,408,170 shares compared with 1,495,420 the day before which was the biggest figure since December 31, 1941.

Issues recording peaks for 1942-43 or longer-some eventually backed away-included United Corp., Commonwealth & Southern, Consolidated Edison, North American, Electric Power & Light, American Water Works, Columbia Gas, Studebaker, Graham-Paige, Chrysler, General Motors, J. I. Case, Aviation Corp., Deere, Du Pont and Texas Co.

American Telephone was up 1% and lesser plus signs were retained by Radio Corp., Johns-Manville, Goodrich and US Gypsum. Postal Telegraph Preferred jumped a point in the wake of house approval of the communications merger bill but ended with a net gain of %. Western Union was down 1/4.

## **Berry Storage** Facilities Short, Ramage Foresees

A shortage of storage facilities in the northwest for the 1943 berry crop was foreseen this week by John Ramage, head of the North Marion Fruit company at Woodburn. It may be necessary to ship the barreled fruit to the midwest, Ramage believes.

Outlook for a canned berry pack is very dim, the fruit dealer believes, except for that taken on government order. The bulk must be processed in barrels. The fruit company handled over 3000 barrels last year and expects more during the coming season.

Ramage foresaw a good year. The unprecedented demand will presage a high price and a fair profit unless unforeseen circumstances arise. The high water seems to have done little, if any,

## By Quinn Hall Legislation **Aids Grains**

The OREGON STATESMAN, Sciem Oregon, Friday Morning, February 12, 1943

CHICAGO, Feb. 11.-(P)-A favorable interpretation of legislative developments in Washington where two bills designed to increase agricultural prices appeared to be progressing, gave the grain market a firm tone Thurs-

Wheat was the early market leader, advancing about 1/2 cent shortly after the opening, but rye had recorded the major upturn at the close. Corn came in for more attention than recently, making wider gains than the bread cer-

At the close wheat was 1/4-1/4 higher, May \$1.40%-%, July \$1.-39 1/4 - 3/4.

The early upturn in wheat, supported by covering of previous short sellers and local professional buying, ran into resistance at \$1.401/2 for the May contract. This had been a stopping point on other upturns. Grain men said commission houses apparently had considerable May wheat to sell at that level.

## **USDA Board Sets** Vegetable Prices

Minimum 1943 prices for snap beans, tomatoes and sweet corn were announced this week by R. B. Taylor, chairman of the Oregon USDA war board.

Minimum price for tomatoes for processing is \$25 per ton to the grower, field run, delivered at the plant. Bean prices are: snap beans, green, ones, sieve size, ones, twos and threes, \$132 per ton; twos, sieve size, fours, \$112 per ton; threes, sieve five, \$82 per ton. Snap beans, wax, ones, one to five sieve size, have been set at \$115 and twos, sieve size over five, \$65

Sweet corn is set at \$23 per ton, field run, delivered at the processing plant. The processor may contract on his own grade but the price must average \$23 per ton.

#### Hop Standardization **Talked by Growers**

Feasibility of establishing grades and standards on hops was discussed among 30 growers Wednesday afternoon at a meeting called by Donald Hill o fthe Oregon State college extension service. Hill asked for suggestions about hop standardization, informing growers that a series of like meetings will be held in California. Growers are doubtful yet as

this year's crop, due to flood damage, but report that some wire has been secured through the Red Cross, and more is expected to aid in repairs.
