

### Jury Pay Back in Committee; Senate Okehs Records Burning

Whether jury service is an "occupation" or purely a duty of citizenship which should carry most of its own reward was the issue debated in the Oregon senate Saturday when that body sent back to committee for further study a bill proposing to increase jurors' fees from \$3 to \$5 a day.

Objecting that it would cost the taxpayers \$100,000 a year, Sen. Fred Lamport of Marion county opposed the measure.

"I think it is the patriotic duty of citizens to serve on juries regardless of the amount of compensation they receive.

The senate approved almost unanimously a resolution by the joint ways and means committee providing for an interim study of the state titling law.

Principal debate at the Saturday forenoon session centered on a house bill authorizing state departments to destroy obsolete records. Sen. Lew Wallace Multnomah county, said this was a bad measure and that its operations should be restricted.

"It is not sound business to allow state activities to destroy official records at will," Senator Wallace declared. Sen. Dean Walker, Polk county, said the measure contained adequate safeguards. The bill was approved with only four dissenting votes.

The senate also passed a bill by the roads and highways committee repealing the law directing the secretary of state to print lists of motor vehicle owners for the convenience of police officers. Senator Marshall Cornett, Klamath county, said the operation of this law had cost the state \$15,000 during the current biennium.

Under the provisions of a new bill introduced by Sen. Thomas R. Mahoney "fortified" wines offered for sale in Oregon would be taxed \$4 a gallon. The present tax is 15 cents a gallon. First large batch of appropriation bills will be reported out by the joint ways and means committee Tuesday. These appropriations will cover the costs of virtually all state institutions and state departments.
