### Love Story At Elsinore

Greer Garson, Ronald Coleman Starred in "Random Harvest"

"Random Harvest," adaptation of James Hilton's new novel, brings to the screen an engrossing story of a strange case of suspended memory, which motivates a haunting romance. Teaming Ronald Coleman and Greer Garson, in her first picture since "Mr. Miniver," it is now playing at the Elsinore theatre.

Following the Hilton novel closely in its details, it is told on the screen as a "straight line" story, while in the book it was told in "flashbacks."

Colman plays a wealthy Englishman who loses all memory of his past during the first World War. He is sent to an asylum, from which he escapes to be befriended by an actress (Miss Garson), who inspires him to begin life anew. He develops talent as a writer. He and his benefactress fall in love, are married and have a child. Then an accident jolts his memory back to his past, but leaves a blank of his life from the war on. He goes home, takes possession of his business and becomes a powerful industrialist.

The wife locates him, but knowing he has no memory of her, takes a position as his secretary, maintaining silence as regards their marriage. How she succeeds in winning back his memory and his love provides a haunting and appealing climax.

Colman plays his role with convincing force, and Miss Garson is charming and wears some beautiful gowns. Each makes the most of a difficult role. Mefvyn LeRoy directed with deft skill. Clever principals include Susan Peters, Phillip Dorn, Regional Owen and Una O'Connor.

**THRASER PLOWS Lots for Gardens**

**SWEGLE**—If Victory gardens are not planted in this district it will not be because J. P. Thraser has not done his part in seeing that garden spots are plowed. He purchased a tractor small enough to use on smallest lots and has been busy plowing for several days now. He gives his neighbors first service, only going out of the district when he is not wanted near home. The ground is put in much better condition than spading could possibly do.

There will be many early gardens in this district if the ground remains warm enough to sprout the seeds. There are very few homes where some garden was not planted this week.

It is still too wet to take larger equipment onto large fields for the planting of oats and wheat, but if it does not rain over the weekend, planting will start soon.

### 'Springtime' Musical Hit

A rollicking musical extravaganza, filmed in gorgeous technicolor against the stunning background of eye-filling Lake Louise, is "Springtime in the Rockies," now showing at the Capitol with a star-studded cast including Betty Grable, John Payne, Carmen Miranda, Harry James and His Music Makers, and Cesar Romero.

Much of the action takes place at Canada's enchanting Lake Louise, known the world over for its wondrous beauty. However, it is conceivable that more than one moviegoer, with an eye to science values, might anticipate with even greater relish the prospect of viewing Miss Grable in the full glow of technicolor magic.

As for listening thrills, let's just mention Harry James and His Music Makers, and say no more. James' talking trumpet is to young America a cause celebre. His torrid interpretation of four new sock tunes by Mack Gordon and Harry Warren, any of his many fans would vow, could make the Rockies themselves rock with rhythm. And, of course, Helen Forrest, a James regular, chips in with Miss Grable, Payne and La Miranda on the vocals.

The companion feature is "Secret Agent of Japan" starring Preston Foster and Lynn Bari.
