Penny Rail Issues Fall

Supreme Court Ruling Hits Stocks, but Average Holds

NEW YORK, March 15-(AP)-Stocks of railways under reorganization tumbled in Monday's market in the wake of the supreme court's St. Paul decision but strong spots among better grade rails and industrials were plentiful.

The recently buoyant "Penny" carrier issues were unloaded in blocks of 1000 to 5000 shares at declines of fractions to 4 points when the court upheld the ruling of the interstate commerce commission excluding St. Paul share owners from participation in the revamping of the road's capital structure. Unsecured rail bonds also weakened as their position. in the light of the decision, was viewed as doubtful.

Trends were a trifle irregular at the opening and remained cloudy at the close. Dealings slackened at intervals but transfers for the full proceedings amounted to 1,356,420 shares compared with 1,972,060 Friday. The Associated Press 60-stock average was unchanged at 46.7, 11, 1940.

Boardrooms found nothing particularly inspiring in the war news and considerable profit cashing persisted.

Stocks advancing better than a point to peaks for the past year or longer included Santa Fe, Great Northern, Bell Aircraft and Pepsi-Cola.

In the softening transportation group were common and preferreds of Seaboard Air Line, New Haven, Frisco, M-K-T, St. Louis Southwestern and Rock-Island.

Moderately lower were US Steel, Bethlehem, Western Union, Consolidated Edison, NY Central, Baltimore & Ohio, Southern Railway and International Harvester.

By Quinn Hall Hedge Selling Drops Wheat; Oats Firm

CHICAGO, March 15-(AP)- A decline of about a cent in wheat, precipitated by an increase in hedge selling and expansion of receipts at principal markets, sent the bread cereal to lowest levels in more than two weeks Monday. Rye eased along with wheat on selling by houses with eastern connections, but oats held relatively firm. Corn never fell below ceilings, although some transactions were made in all contracts.

At the close wheat was off %-1%, May \$1.43%-%, July \$1.441/4-1/8, corn was unchanged at ceilings, May \$1.01, oats were 3/4 lower to 1/4 higher and rye showed losses of %-1 cent.

Receipts of wheat at 12 principal interior terminals close to 3,127,000 bushels compared with 2,336,000 a week ago. It was reported also that country stations in the northwest are unable to obtain sufficient box cars. If the storage should be overcome, there would be considerable additional grain going into Minneapolis. Demand for wheat continued fairly good, however, with the visible supply decreasing 174,000 bushels to 173,654,000 bushels. This was much less than the 201,713,000 bushels in the visible supply at the same time last year.
