Extracurricular... (Life at Willamette, beyond the books) By RUTH MATTHEWS

The wardrobe problem for Willamette girls this week was yery simple, since everyone wears white for Freshmen Glee anyway, and the early and late practice hours decree comfortable slacks or skirts and sweaters for one and all. But even as uniform an order as white dresses for Glee allows some variation and we each concentrated on our particular concection. either sprucing up last year's or making something new.

First there were the one-piece dresses, preferably styled casually for sport. These we prefer in materials such as sharkskin. spun rayon, cetton broadcloth or seersucker, but also cheer for the white wool jerseys we noticed. When girls are making their own dresses, and lucky are the many who do sew for themselves, they like to look ahead to later adding bright accent in embroidery or buttons to relieve the all-white for practical wearing.

In the two-piece line we have (sounds like a sales talk, doesn't it?) the suit-dress and the costume that is frankly a skirt and seperate blouse or sweater-you can't keep college girls out of them. Sharkskin is again popular this time for the all-around pleated skirk that can be so easily læmdered and is fun to shorten and wear later for tennis. Tennis is rather like Glee for us, overlooking the exercise part of both, in that we endorse the all white costume for the courts. It encourages our game to look professional, even if our serve is pretty bad.

Then the Glee costume is completed by low heeled white shoes, and those of us who had to have new ones ran into this rationing business while shopping. We dislike being so typical, but have nou, too, noticed the inconsistencies among shoes that take a stamp and those that don't? However, white shoes it had to be, and we can only pray now for an annual Oregon spring (you know, dry?), because we have them now and must wear them until the next stamp time.

Indulgently, we turn to notice what the men are wearing this weekend, and find them in dark suits for Glee, rather a nice change, we think, from the mill stream soaked togs they've been wearing all week. The senior men wanted to wear blue ties to go with their blues song, until one lad shricked, "What, with a dark green suit?" And the senlors feeling the wartime pinch

men, were inclinde to be indulgent, too, to all sixteen of them. Now, sixteen, isn't so bad. That's all the juniors had, too, and they're a much bigger class. Or are we prejudiced? Anyway,

Elvy Frederickson and Jean
