Married March 26, 1893, in Bloomfield, Mo., Mr. and Mrs. Gray came to Salem 10 years later and resided here continuously until four or five years ago.

An Afternoon Speaker . . .

"I believe in the power of organized motherhood," Helene Granitsch, officer of the World Woman's party and figure of importance in the international scheme of peaceful Europe, declared to members of Salem branch, American Association of University women, as she addressed their luncheon meeting Saturday in the mirror room of the Marion hotel.

"The mothers of the world have to control and so influence the making of tomorrow, that more humanity and more common sense and less selfishness and personal ambition and more love and less hate may rule that world of tomorrow," she maintained.

"We must arm the law and not the litigants" was quoted by the speaker as one of the lessons learned in Geneva, where from 1933 to 1937, Mme. Granitsch worked as a member of the women's consultative committee of the League of Nations. From her diary, originally written in French, she translated brief sketches: "We realized at Geneva that it is true, more than 90 per cent of the people of the earth wanted peace and the only difficulty is to get rid of the 10 per cent of evil doers who led them astray. But a League of Nations without a strong international police force to meet every kind of aggression was helpless. . . . After a very interesting conversation with Litvinov in Geneva I realized the great danger of Europe, and elected to speak over the Radio Geneva, September 25, 1937. I challenged mothers all over the world to hang together and to work together for the 'United States of Europe' to avoid wars and revolutions. It was too late!"

Hatred, now a profession, has its roots in economic distress, the speaker declared, maintaining that a strong basis for peace should be freedom from want. The "haves" and the "have nots" must be fed alike to avoid war, she said.

There were no women around the Versailles peace table in 1919, Mme. Granitsch pointed out, declaring that it was "not a right conference, and we know now that it was not a right peace."

Women of the world are asking for equal rights with men; they must be ready to share with them equal responsibilities, according to this woman of worldwide experiences.

National fellowship funds of AAUW have received \$95.25 from Salem branch because of the series of social benefit events sponsored by members of her committee this year. Mrs. Custer Ross, fellowship chairman, told the luncheon gathering. Members of the committee were seated at the speakers' table.

THE BRIDE of Mr. George Windedahl is the former Eileen Blundell, daughter of Mr. and Mrs. Percy Blundell, who was married March 14 at the American Lutheran church. The groom's mother is Mrs. Martha Windedahl.

PICTURED ABOVE is Mrs. David Solotar, Besse Elizabeth Browne, daughter of Dr. and Mrs. Harry Browne of Salem, who was married in Portland, on February 21.

Don't Look Now.

...but . . . it takes the high school kids to put over a sale like that of a week ago, where they sold several thousand dollars worth of war stamps so they could find out which girl would reign over the school activities. We older people with more money couldn't do it. See write up about it on another page.

A sad story . . . Now we hear that they've decided to stick to their stories about not making any more electric irons but because of the "pressing" need for more irons, they'll pamper the housewife and make her some of those good old "sad" irons. Then she can still iron her husband's shirts. This will only prove that the housewife can get hot over things a whole lot faster than Mr. WPB's iron will on the electric burner. What is this anyway, a war?

Her bit . . . That there are some loyal Salem Japanese may be assumed when one knows that a US treasury check for \$3.75 was sent the local Red Cross with the note "Please except this small donation, to be used toward the help of the un-

fortunate, Kimi Yoda." A former high school student, Kimi is at Newell, California.

And another . . . former student, Willamette coed Maye Oye recalls other happier Freshmen Glees in a letter to the Collegian editor. She tells of the monotony of barrack life at Tule Lake but concludes that she's far better off than "if we were in Germany, for we would not be working without the point of a bayonet in our backs . . . this is democracy and we are free."

Now we'll get somewhere . . . Isn't it funny, women have been having garden clubs for years, making vegetable gardens for many seasons and nobody gave 'em any front page space. This year the men are gardening (or at least talking about it) and bang, it's really news. Oh well, girls, maybe they'll do the hoeing for a year or two anyway, so pat their backs and tell them how wonderful they are, you know our system!

Oh yes . . . wouldn't it be funny if the wife of the man who made up that idea about the flatirons couldn't iron his shirts with her's? . . . Maxine Buren.
