Stocks Rally After Relapse

AP Average Up .1; Transfers Heavy As Trade Levels

NEW YORK, April 10-(AP)-Aft-er taking its worst beating this week in nearly a year, rallying rails and scattered industrials Saturday helped the stock market regain its composure.

The list advanced Monday and Tuesday to peaks since May 9, 1940. Profit taking stalled the advance Wednesday and Thursday. Friday witnessed the sharpest relapse since May 21, 1940, as the president's new price-wage ceiling drive took the starch out of speculative inflationists and caused heavy unloading in virtually all departments.

Mixed tendencies prevailed at the start of the brief proceedings and, while favorites managed to emerge with plus marks of fractions to a point or. so, losers of as much were widespread.

The Associated Press average of 60 stocks was up .1 of a point at 47.5 after Friday's slump of 1.9. The irregularity of the session was exemplified by the fact that, of 840 individual issues traded, 435 were up or unchanged against 405 down.

were the largest for a Saturday since December 27, 1941. They compared with 835,610 a week ago. During the week there wer four better than two-million shar days, a record since May, 1940.

By Quinn Hall Grain Prices Look Upward

CHICAGO, April 10 - (AP) - All grain prices moved higher Saturday, spurred by a sharp upturn in rye at Winnipeg, a government report estimating a substantial reduction in winter wheat production and Washington news dispatches predicting an upward revision of corn ceilings.

After the market closed, Food Administrator Chester Davis announced a 5 cents a bushel advance in maximums on cash corn. The increase was to take effect immediately, and would bring the ceiling on No. 2 yellow corn here to \$1.07 a bushel. There was no mention of futures ceilings in the news reports.

Wheat closed 12-116 higher, May \$1.42%-34, July \$1.42%-1/2; corn held at ceilings May \$1.02, oats advanced %-% and rye spurted 1/8-11/2.

The government crop report set winter wheat production as the smallest in seven years at 558 .-551,000 bushels against 703,253,-000 bushels last year. Trade reports from Kansas, however, said weather the past few days had relieved any need for moisture for quite some time over a wide area of the state.

At Winnipeg, ceilings on rye were removed at the opening and the grain surged forward for gains ranging to more than 5 cents at one time. The local market rose in sympathy with Canada.
