The enemy was pushed back here today!

EVER see a newspaperman's desk at the end of a crowded day—ash-strewn, paste-smearred, littered with the grist of the news mill that never stops?

It's hardly to be compared with the desk of a great general—and yet the enemy was pushed back here today!

Pushed back by another 24 hours of truthful reporting . . .

Pushed back by community leadership in myriad war activities from bond selling to tin can salvage . . .

Pushed back by the little things that help build and sustain a nation's morale—the personal items, the pictures of the boys at the front, the helps on the home page, the laughs on the comics page and the information and inspiration throughout the newspaper.

Yes, the enemy was pushed back here again today.

He will continue to fall back so long as American newspapers have anything to do about it!
