The OREGON STATESMAN, Salem, Oregon, Tuesday Morning, May 25, 1943

Light Session Holds Market

Tax, Labor Questions Given as Reasons For Sale Apathy

NEW YORK, May 24-(AP)-Buyers and sellers seemed content to let the stock market drift Monday and leaders generally jogged over a narrowly irregular course in the fourth lightest 5-hour session of

A few specialties, notably tobaccos, pushed up at the last, but indefinite trends ruled in most other departments from the opening. Steels, rails, motors, rubbers, utilities and coppers failed to get anywhere, the majority closing with minus signs.

Explanations for the day's apathy were numerous. Brokers said their customers inclined to step carefully pending more light on forthcoming taxes and settlement of various labor controversies. There were individual bullish influences and the persistently good war news kept liquidation at

The Associated Press 60-stock average was unchanged at 50.7. Breadth again was lacking, 870 issues being traded. Of these 340 were down, 301 up and 229 unchanged. Transfers totaled 789,-Friday.

Glenn Martin was an isolated favorite, opening on a 4,000-share block for a gain of 2 and ending with a net advance of 11/2 at 22 %. Saturday's \$1.50 dividend seemingly was a stimulant here.

Bakery Found Best

CAMP WHITE, May 24-(AP)-W C. Cushman and C. B. Clark, civilian advisors for the ninth service command, inspected the Camp White bakery Saturday and pronounced it the best in the command area.

Strawberry Peak Expected Here In Mid-June

Although some local strawberies have appeared on the market here the peak of the local strawberry harvest will not be reached until sometime in June, officials of the federal employment office predicted here Monday.

There has been a marked reduction in strawberry acreage in the Silverion Hills district where picking is approximately two weeks later than in the

Changes in the farm machinery USDA war board.

County quotas have been elimsonal use is over.

Farmers holding purchase cerpickups balers, potato diggers and unchanged, July \$1.05, oats were Lewis and Clark Will livery rakes may purchase from showed gains of 1/2-1/6. any dealer in the state who has the item in stock.

Removal of county quotas and suited to the tractor with which it will be used, the chairman explained. This was not always possible with quotas in effect, as both the make and number of machines allocated to the county were specified.

The change in the rationing program will not increase the amount of new farm machinery available in Oregon, nor will it eliminate purchase certificates. Applicants for any of the "noquota" items will be required to locate the needed machinery in a dealer's stock.

Before any additional certificates are issued the amount of the county's original quota, farmers already holding certificates will be given time to locate and buy their machinery. Tate said.

The farm rationing committee's policy is to get available machinery into use as speedily as possi-ble, the chairman declared. If the holder of a purchase certificate dies not like the make of that particluar machine that a local dealer has in stock, the committee will give the machine to some other farmer who has immediate need for it.

Rieder Advises **Dusting Pods** For Pea Weevils

Over the weekend, temperatures and conditions were favorable and a heavy migration of pea weevils occurred from hibernation quarters to the pea fields, reports Robert E. Rieder, county agricultural agent.

Dusting should begin immediately wherever pods are in evidence. Later fields may wait a few days until pods begin to form. Dry edible peas should be dusted with 1/2 of 1 per cent rotenone at the rate of 25 pounds per acre beginning immediately. Whether or not a second dusting is necessary and desirable will depend upon weevil movements into the field. For making this determination, a sweep net should be used and where 25 sweeps of the net average one weevil, a second application might be justified.

Austrian winter field peas are generally not ready for dusting yet. The same dusting rate can be used after pods begin to form

Larsen Leads Boys To North Fork Station Spotting Fire Patrols

SILVERTON - Lloyd Larsen was in charge of 23 boys from the Silverton high school on a field trip to the North Fork ranger station beyond Molalla last week. At the close of school the high school boys will assume positions as fire patrols and will live in the vacant CCC camps. Ten boys will be stationed at the old Mill City CCC camp. Salary will be paid the boys by the Marion-Clackamas Fire Patrol association.
