

Liquor Board May Borrow To Stock Up

Indication that the state liquor control commission has in mind the borrowing of a large amount of money with which to make advance payment on future liquor deliveries and thereby protect itself against a serious liquor shortage, was contained in an opinion by Attorney General I. H. Van Winkle here Thursday.

The opinion was requested by Secretary of State Robert S. Farrell, jr.

Van Winkle held that under the Oregon statutes the liquor control commission has authority to borrow money but not as a general obligation against the state. Funds borrowed by the commission would be repaid out of liquor sales receipts.

The Oregon constitution provides that the state shall not incur a debt in excess of \$50,000 unless approved by the voters. The opinion mentioned a loan of \$3,000,000 or \$4,000,000.

The attorney general further held that Farrell has authority to audit and issue warrants in payment of claims arising from the purchase by the liquor control commission of alcoholic liquors for future delivery.
