## Wheat Price Stages Gain

Rye Drops 1/2 Cent After Earlier Rise To New 6-Year High

CHICAGO, June 4-(P)-Interest in the grain pits turned to wheat Friday and the bread cereal advanced more than a cent while rye, the recent market leader, dropped about 1/2 cent after moving to new six year's high early in the session. The strength of wheat largely reflected poor crop reports from Kansas.

Oats were steady on an active shipping demand for the cash article and a boost in the Canadian export tax on oats and barley to 8 cents a bushel for shipment to eastern United States areas. This was 11/2 cents above the previous day, making a gain of 21/2 cents for the week. The feed situation in the east was reported as critical.

At the close advances in wheat ranged from 1-1% cents, July \$1.45 %, September \$1.45 %-%; corn was unchanged, July \$1.05, oats were up 1/4-1/8 and rye was down 3/8-5/8.

· The Robinson Elevator company of Kansas estimated winter wheat production in that state at 154,645,00 bushels which compared with a forecast yesterday by C. M. Galvin of 153,905,000 bushels and an earlier estimate of the Santa Fe Railway of between 145,000,000 and 150,000,000 bushels. Last year the Kansas harvest totaled 206,000,000 bushels.

### By Quinn Hall Peace Stocks Hold Strength

Many Leaders Drop After Recovery Attempt

NEW YORK, June 4 -(AP)- A few stocks with peace prospects maintained a certain popularity in Friday's market but many leaders dipped after an early attempt to follow through on recovery met with scant support. The direction was irregular at the start and declined of fractions to a point or so predominated at

The Associated Press 60-stock average was down .2 of a point at Onions

51.9. Tranfers totaled 1,254,855 Watercress, doz. bunches shares against 1.178,560 Thurs-

Prominent on the losing end were US Steel, Bethlehem, General Motors, Anaconda, Kennecott, Santa Fe, Southern Pacific, US Rubber, General Electric, International Harvester, Douglas Aircraft, United Aircraft and Johns-Manville.

Morris & Essex added 21/8 points to its run-up of yesterday as talk persisted that the road's leasing fees from Delaware & Lackawanna would be settled with bonds. In front were Libby-McNeill, Pepsi-Cola, Montgomery Ward, American Telephone and US Gypsum.

#### **Fat Lamb Show** Set at Turner For Today

Dogs and their masters, lambs and their shepherds, farmers and their city neighbors will take a short breathing spell in this year of all out production as the Marion county fat lamb show and state dog trials get underway at Turner today.

The progress of the sheep industry, often referred to as "The trail of the golden hoof" came nearer living up to that phrase during this World war than at any other time as the control of the world's supply of wool in the hands of the allied nations is worth real gold. Probably no animal in all the world has contrib uted so much to the comforts and welfare of mankind as has the sheep, growers assert.

There are \$250 in awards and prizes available for fat lambs, sheep herding dogs, wool fleeces, bottle fed lambs and other features of the show.

The state dog trials, which will get underway at 3 p. m. have caused widespread interest and should be better than ever as two former state champion dogs will be on hand to defend their title against some of Oregon's finest sheep dogs. Judging for this year's show

are Claude Steusloff and Ronald Hogg on the lamb classes and O. Nelson and Harry Lindgren on wool fleeces and the dog trials. Refreshments are available on

the grounds.

#### **Farmers Urged To Start Dusting** Pea Blossoms

Austrian winter field peas should be dusted now for the control of pea weevil, announces Robert E. Rieder, county agricultural agent.

Pea weevils have moved into the fields in large numbers and the peak flight of weevils is passextension to the present lease of ed so that Austrian winter field or passed bloom should be dusted immediately.

Rotenone dust 1/2 per cent should be used at the rate of about 25 pounds per acre. The dusting operation will be most effective if the temperature is at least 70 degrees or higher when the dusting is done. There, of course, should be as little wind as possible so as to conserve dust and get better coverage of the plants.

On large fields it might not be necessary to dust the whole acreage. Infested areas can be determined by using the sweep net. Late blooming fields should not be dusted until they are in full

Out of Hospital
INDEPENDENCE—Mrs. Alfred Sylvesyer, who underwent an operation recently at the Salem General hospital, left the hospital Friday to go to the home of her sister, Mrs. Helen Duncan, in Salem. She will return to the home of ther parents, Mr. and Mrs. Felix Wattenberger, soon.

### Hop Growers **Await Ceiling**

PORTLAND, June 4-(AP) - (US DA)-With old crop supplies pracically cleaned up and growers still reluctant to commit themselves on 1943 futures, the Oregon hop markets remained quiet last week, the department of agri-culture announced today.

Shipments to eastern markets have been frequent since 1940 and older growths were released for marketing. A good demand continued for 1943 hops but growers still await price ceiling decisions. Weather during the week was variable, ranging from below freezing in the elevated localities

areas. Cloudy weather prevailed in the Willamette valley hop reg-Training of vines progressed in most yards but the crop was generally regarded as somewhat backward as compared with other recent years. Labor for spring

to above 80 degrees in the warmer

work in the hop yards was still scarce and mostly inexperienced. The situation as regards downy

reis. Quality of the berries is
