Drift Lower

NEW YORK, June 11-(AP)-A few peace-time favorites register-ed modest improvement in Friday's stock market, but the general run of leaders ignored the good war news and drifted to moderately lower levels.

Sellers were as timid as buyers, and for the third successive session, volume failed to reach the million-share mark. At the close declines ranged from fractions to a point or so. Steels, rails, coppers and aircrafts were among the indifferent performers.

The Associated Press average of 60 stocks retreated .2 of a point to 51.3. Of 904 individual issues traded, 408 were down and 497 up or unchanged. Transfers totaled 840,510 shares, against 904,900 Thursday.

Hercules Motors was among the isolated strong spots, moving up 1% to 17%, a peak for 1943. Others in the "new high" divi-

sion included Sears Roebuck, Woolworth and Deere. Among forward leaders were Goodyear, Goodrich, Electric Power and Light, American Telephone, International Nickel, Eastman Kodak and Allied Chemical.

Prominent losers were Santa Fe, PORTLAND, Ore., June 11—(AP)—

Boys Questioned About Egg Throwing

WEST SALEM-A number of youths have been questioned concerning an egg-tossing escapade Saturday night about midnight. A soldier and his friend reported to police that they were badly spattered by eggs thrown from a passing car, while they were walking near the Puritan market. There has been no clue other than the fact that several persons described the car as a dark blue or black convertible

CHICAGO, June 11—(AP)—A Corn strong buying wave swept into the grain pits Friday and, despite heavy profit-taking at times, oats and rye rose to new seasonal peaks and wheat jumped as much as a cent. The government crop report, forecasting substantial de-clines in grain production, inspired the buying.

The OREGON STATESMAN, Salem, Oregon, Saturday Morning, June 12, 1943

All rye contracts were at new peaks since 1937, and at one time the September delivery crossed the \$1 line, although the close was below that level. The July oats delivery was at a new high since 1920. Trading in all pits was
