Rye Futures Hit Record

New 15-Year Peaks Established as **Optimism Mounts**

CHICAGO, June 28.-(AP)-New 15 year peaks were established by rye futures Monday on gains of about 2 cents in a market which reflected a growing conviction among traders that the country's livestock population this year is going to consume enormous qualities of feed grains.

Oats were strong with rye, although gains were confined to fractions, and wheat rallied in the closing minutes to finish with slight advances after having sold under the preceding session's close most of the day. Hedging appeared in the wheat pit and traders were wary of following the recent upturn.

At the close wheat was unchanged to 1/4 higher, July \$1.44%-1.45; oats were 1/8-3/8 up, July 68-%-69, and rye was ahead 11/2-1-%. July \$1.00.

Commission houses and local traders were both in on the buying side of rve. Although supplies of the grain are heavy, the department of agriculture estimates feeding requirements during the present crop year at 55,000,000 bushels, which is considerably in excess of the latest government production forecast of 31,000,000 Portland Produce bushels.

was an announcement by the war butterfat—First quality, maximum of 6 of 1 per cent acidity, delivered at portland, 52-52½ lb.; premium quality maximum of 6 of 1 per cent acidity, delivered at portland, 52-52½ lb.; premium quality maximum of .35 of 1 per cent acidity, 53-53½ lb.; valley route and country prints, 2c less than first, or 50-50½ lb.; second quality at Portland 2c under first or 50-50½ lb.
