

more than \$2,500,000, 65 per cent of which represented out-of-state sales.

Market Ends High Month

Stock Prices at Best Average Since 1939 Autumn Record

NEW YORK, June 30—(AP)—The stock market Wednesday closed the month on a confident note with prices at the best average level since the autumn of 1939. The list swung into a broad advance in the final hour for general gains ranging from fractions to around 2 points.

Showing consistent climbing power, the air transport shares, utilities, merchandising stocks, chemicals and a wide list of specialties had an especially good day. The Associated Press 60-stock composite rose 3 of a point to 52.2, duplicating the peak established early in June, which was high since November 6, 1939. The utility average recorded its best figure since early 1941.

Dealings amounted to 942,410 shares, compared with 807,560 Tuesday.

Rail loans were selectively bought in the bond market. Chicago wheat closed 1 1/2 59 2/3 cents a bushel higher and rye advanced 2 3/4 to 2 1/2 to 16-year highs. Hogs were about steady.

Improved in the curb were Aluminum of America, Electric Bond & Share, International Petroleum and Niagara Hudson Power, Brazilian Tractor, and Aluminum, Ltd., were lower. Transactions were 251,755 shares against 253,490 the day before.

Spring Lettuce Deal Heavy At Malheur

The Malheur county spring lettuce deal, now nearly closed, will see in the neighborhood of 275 carloads of lettuce shipped to eastern markets, according to the state department of agriculture's cooperative shipping point inspection and certification service. This is a tremendous volume from this area and more than three and one-half times the previous maximum spring deal.

Prices have been exceptionally good, with the result that the success of the spring deal is expected to stimulate the planting of fall lettuce in that area.

New Envoy

Ray Atherton (above), former US minister to Denmark, now acting chief of the division of European affairs in the state department, has been nominated by President Roosevelt as minister to Canada. — Associated Press Teletext.

Heavy Buying 30 MKT Takes Grains

No More Sub-Parity Sales for Alcohol Causes Pit Run

CHICAGO, June 30.—(AP)—Announcement that the Commodity Credit Corporation would have no more wheat for sale at less than parity for ultimate conversion into industrial alcohol brought heavy buying into the grain pits Wednesday. The CCC's authority to make such sales ended today and no extension of the program was expected.

The market drew additional support from overnight agreement by senate and house conferees to prohibit further subsidies to hold down prices without prior consent by congress, reports of a pick-up in flour business and increased demand from commercial interests in the wheat pit.

Wheat closed 1 3/4% higher, July \$1.46 1/4-1%; September \$1.46 1/4-1%; oats were up 1/4-1%, July 69%, and rye was ahead 2 1/2-3%, July \$1.01 1/4-7/8.

Sales of wheat by the CCC for conversion into industrial alcohol have run about 12,000,000 bushels each month recently.

Traders in the rye pit felt the CCC's action would result in an expanded demand for that grain, and rye paced the upturn.

Activity in the flour market was stepped up, trade advisers said, although the family trade continues to remain out of the market.

There was no change in the corn situation. Supplies requisitioned from elevators are not expected to last long and government action to get grain off farms is being awaited.

Brown to Circulate Liquor Sale Measure

PORTLAND, June 30—(AP)—Mel P. Brown of Common Sense, Inc., said Monday he would start circulating petitions about October 1 for a November vote to repeal the Knox Oregon liquor control law and to permit the open sale of liquor by the bottle and glass. A similar proposal of Brown's was defeated in the 1940 election.

Portland Livestock

PORTLAND, Ore., June 30.—(AP)—(USDA) Cattle salable and total 100 calves 25; market very active; canner-cutter cows 30 to 70 higher, instances 1.00 above week ago; other classes up less; no fed steers offered; few common-heifers 12.00-13.00; canner-cutter cows 4.75-8.00; fat dairy type cows 9.00; grass fat beef cows 10.00-11.00; odd head 11.75-12.00; medium-good bulls 10.50-11.50; good-choice vealers 14.00-15.00; odd head 15.50; common down to 9.25. Nurserymen Give Vegetable Bouquet To State Director

None may accuse nurserymen of Oregon of being out of step with the times. At a recent meeting in Portland when Director E. L. Peterson of the state department of agriculture made his first official appearance before a nurserymen's group, Pres. J. E. French of the Oregon Association of Nurserymen presented the director with a centerpiece made, not of flowers, but of fresh green vegetables.

"This group has done a splendid job of conversion to a war time footing," Director Peterson told the nurserymen. Oregon nurserymen have quadrupled their acreage of vegetable crops since 1941 and also have met the strong demand for nursery stock.

From slightly in excess of 4000 acres of nursery and vegetable crops in 1942 the Oregon nursery industry received an income of
