Grains Record Strong Losses

CHICAGO, July 9 (AP)—Reflecting disappointment at the failure of anti-subsidy and corn ceiling revision legislation to pass congress, all grains recorded substantial losses Friday.

The market was weak throughout the session and final prices generally were at the day's lows.

Trading volume sank below yesterday, when total transactions were the largest for more than a year.

At the close wheat was down 2-2 1/2¢, July \$1.45, September \$1.46 oats were off 1-1 1/2¢ and rye was 1 1/2-3 1/2¢ lower.

Traders thought the Commodity Credit corporation would soon renew its feed wheat sales program, now that the agency's life has been extended, and this would tend to ease the feed grain situation.

Imminence of a government crop report tended to restrict transactions. After the close the government estimated all wheat production as of June 1 at 790, 823,000 bushels compared with 730,524,000 bushels a month earlier.

An improved outlook had been generally expected.
