Warm weather thirst quenchers

When that old, red mercury starts climbing toward the top of the thermometer, be ready with thirst quenchers that will buoy up your spirits! Simple to plan, simpler to make. Casual coolers . . . special occasion beverages . . . nourishing milk drinks that serve as part of a meal—any one of them will prove to be a welcome pickup when energy seems to be at low ebb. Don't let Mr. Mercury catch you unprepared!

SUGAR SYRUPS—One of the first requisites of cool beverages is the sweetener, that can be added instantly. It stretches the sugar supply, too, because it blends with the drink completely. Have some on hand. Combine 1 cup sugar with 2 cups water, stir until dissolved, then boil rapidly for 10 minutes. Cool and store covered in the refrigerator until needed.

FRUIT ADES—Oranges, lemons and grapefruit are tops among thirst quenchers ingredients. But don't forget other fresh fruit, too. Press the juice from ripe plums, peaches, apricots, nectarines or berries by forcing the fruits through a food press or coarse sieve. Mix the juice with water . . . or for that added sparkle, mix it with plain carbonated water. Add sugar syrup to taste, and serve frosty cold.

MILK SHAKES—HOME STYLE—When a light snack is in order, serve it in the form of a nourishing milk drink. Mix chilled milk with sugar syrup and flavoring, or with molasses, honey or corn syrup. A dash of plain carbonated water will give it that "ice cream soda fizz," and a bit of nutmeg dashed on top will add just enough spice.

FOR MORE ABOUT COOL DRINKS be sure to get your copy of Family Circle Magazine at your Safeway this week, and read Julia Lee Wright's article entitled "Cool Drinks for Warm Days." You'll find hot weather ideas galore.
