Clubs Plan Park Benefit, Scholarship

WOODBURN—Plans for the benefit ice cream social on the library park lawn at Woodburn for raising the \$250 for the nurses' scholarship which the Woman's clubs of the city are jointly sponsoring, have been enlarged to give the patrons of the social a part in the nominating ballot to select the candidate for the scholarship.

Each purchaser of a 15c dish of ice cream will be given a ticket on which he may write the name of his choice, and put it in the ballot box. The nominee should belong to the community, that is Woodburn and its tributary country. Their scholarship, background of preparation and character will all be considered in making the final selection, and the successful candidate will be expected to complete the three-year course.

Growing interest in the scholarship already has been evidenced by volunteer gifts and pledges, both from organizations and individuals, and it is hoped that the lawn social benefit will give a substantial boost to the fund so that the young woman may begin her training as soon as possible.

A young people's orchestra will furnish music for the night. The tables and chairs will be placed about the park lawn, and the members of the Junior Woman's club will serve. The merchants of the city are giving aid to publicity by affording window space for posters announcing the event, to be held Wednesday night, July 21.

Jersey Meet Disappoints

National Directory Tells Silverton Folk Of National Club

SILVERTON—Disappointment in the national meeting of the American Jersey Cattle association meeting was frankly expressed by Walter Leth, national director, when he spoke before 30 members of the Marion County Jersey Cattle club at their July picnic held Sunday at the M. G. Gunderson home. Mr. Leth had just returned from a director's meeting in New York.

"This meeting," said Mr. Leth, "was held in the heart of New York City, and it goes without saying that only those who did not have to milk cows could attend."

The membership was largely represented by very wealthy men who never get hold of a Jersey cow and scarcely know a Jersey when they see one. I am glad that these men are now really shaping the destiny of our Jersey breed."

Mr. Leth went on to tell that he found the American Jersey Cattle association a complicated institution. It was housed in a three-story building with all three stories used by the association. Employees numbered 125 and 1000 registration certificates were received each month.

In Mr. Leth's opinion, the greatest problem facing the Jersey men at this time is maintaining a selective registration program, qualification of which is a tested dam. Obtaining testers now, Mr. Leth explained, was almost impossible. However, he urged the dairymen to shy away from any program that isn't sound, saying that it is better to let matters rest somewhat until a sound program again could be instituted. The general health of the association he spoke of as "flourishing."

Mr. Leth said it was quite a thrill to see the first registration certificate of a Jersey animal. This was in possession of the association which now has registered 1,400,000 Jerseys.

Mr. G. Gunderson, president of the Marion county club, introduced Mr. Leth.

Gunderson also introduced other visitors including Miss Catherine and Miss Marie Zorn of Champeog, Miss Lillie Madsen and Miss Colleen Madsen. The latter, now of Hillsboro, was recalled as the daughter of Victor S. Madsen, active member of the club a few years ago.

Gunderson made three announcements of general interest to club members: that the August meeting would be held at the Lewis Judson home at Salem; that there would be a Jersey sale at the Henry Zorn farm near Champeog in early August, the exact date yet to be set, and that Nash Brothers, prominent Jersey breeders of Marshfield, were moving to the old Durbin farm near Salem.

Following the program hour, the group went down to inspect the Jersey herd of Dr. M. E. DeGuire. Dr. DeGuire's herd numbers 130, of which 75 are registered Jerseys, of these 66 are now milking.
