Grains Drop In Dull Market

Wheat Loses Nearly A Cent; Rye and Oats Follow Down Trend

CHICAGO, Aug. 20-(AP)-Wheat retreated toward the close Friday and final prices were down almost ar cent. Failure of several small attempts to push the market higher discouraged traders and buying support was withdrawn late in the session. Rye and oats turned reactionary with the bread cereal.

With actviity on a light scale, wheat finished 1/2-7/8 down, September \$1.441/4, December \$1.46-\$1.45%, oats were unchanged to 1/4 lower, September 70%, and rye was down 1/8-1/2 September 98%-14.

Announcement of minor adjustments in the ceilings on soft wheat flour, designed to permit Pacific coast and other western soft wheat millers to compete in an equal basis in the middle west and east with mills in those territories, had little influence on prices. Marketings of wheat in the soft wheat area of the central west are pracically nil.

Traders were inclined to be cautious on the basis of news dispatches from Washington that the new cost of living subsidy plan will be in operation before congress returns next month.

The prices below supplied by a lo-cal grocer are indicative of the daily market prices paid to growers by Sa-lem buyers but are not guaranteed by The Statesman: Wheat receipts at major terminals declined drastically, only 1.859,000 bushels arriving against Cauliflower, crate 3,128,000 bushels a week ago.
