# **Grains Rise** Up to 1 Cent

#### Trade Revises Attitude On US Importation of Argentina Wheat

By WILLIAM LOCHNER CHICAGO, Oct. 5-(AP)- The grain trade revised today its estimate of the price influence of the government's program for Argentine wheat imports, considered bearish heretofore, and wheat futures prices rose as much as a cent, with other grains following. The Commodity Credit corporation's announcement that it had

purchased 582,000 bushels of Argentine wheat and had asked for offers of 1,480,000 additional bushels was regarded by the trade as indicative of a strong demand for wheat for feed. Argentine wheat will be sold to dairy and poultry farmers in deficit livestock areas of the east and southeast.

Wheat futures, closing at or near the day's peak, finished % to 11/2 cents higher than yesterday. December \$1.51 1/8, May \$1.51 1/2, and rye closed 1/8 to 1/4 cents up, December \$1.08 1/4 to %. A factor which traders believe

will force more feed dealers into the open market was the CCC's decision not to sell cash wheat in the east except for use of dairy cows and poultry.

This announcement as well as strength in other grains had considerable influence in the rye pit

last few weeks, during which period about 200,000 bushels were moved from Canada to Duluth. moved from Canada to Duluth.

Commission houses and professionals were on the buying side showed about a % per cent gain

hospital Monday afternoon for her home on North Water street. She is reported as getting along fine. 2234c; A 2132c; B 1932c; C 1734c; 1532c; canner-cutter cows 1432c;

#### Congress Opposition To Treasury Tax Fails to Boost Shares

The OREGON STATESMAN, Sciem.

By BERNARD S. O'HARA NEW YORK, Oct. 5-(AP)-The tock market continued its generally lower drift today with leaders dropping fractions to a

Selling picked up a little at intervals in the forenoon but volume dwindled appreciably after mid-day as most brokers and customers forsook the ticker tape for the radio to follow the first game of the World series at the Yankee stadium. Closing prices were above the worst in the majority of cases and there was a smattering of gainers among specialties.

Before the opening Wall street had an idea a fair-sized recovery might be touched off by overnight reports from Washington that congress would ditch the treasury's tax program and write a bill of its own. Failure of any response to capital developments, however, apparently inspired additional lightening of commitments. Some potential buyers stood aside to await further international happenings and it was noted war stocks were about as indifferent as peace groups.

The Associated Press 60-stock average was off .1 of a point at 50.7. The market was a bit broader, 825 issues being traded. Of these, 413 were down, 185 up and 227 unchanged. Transfers totalled 489,865 shares compared with 497,100 yesterday.

### Onion Growers **Meet Called** October 13

The state department of agriculture Tuesday urged all interested onion growers to attend the hearing to be held at the Marion county court house at 1:30 o'clock Wednesday, October 13, to consider remonstrances against the proposed reestablishing of the boundary lines in the county control area orginally set up about two years ago to protect the onion industry against yellow dwarf disease.

The control area, once amended since its establishment, was set up to safeguard the onion growing industry of the Labish area against yellow dwarf disease, which is a virus disease now presumed to be spread by aphis and other sucking insects. While there is no definite distance demanded in establishment of the lines, it has been considered that they should extend in the neighborhood of a mile from the growing area. In some instances boundaries are greater than this because existing roads have been used as the guide

lines. Under the proposed reestablishment of lines, a small territory now under control would be eliminated. Experience the past year has shown that it is impossible to police adequately such a large boundary as now exists. Preliminary to calling the hearing, department officials sat in with a committee of onion growers of the control area at which time full discussion was given to proposed changes. The committee recommended the suggested changes and expressed the belief that under them reasonable safeguards would be continued against any chance of the disease moving into the onion growing areas.

### Presbyterian Leaders Plan Rally Program At Monthly Meeting
