Dan Miles allows he's swimming right in style these days. Dan's always made a point of finishing up whatever food was put before him. "Don't make sense to waste food just to be stylish," he says.

Now out comes an etiquette authority who says it's wartime fashion to take only what you're going to eat and finish it up clean—because "Food Fights for Freedom."

As Doc Mitchell says, "Most folks eat too much anyway. Man and boy, I've watched this town

for years, and 75% of us dig our own graves with our teeth."

From where I sit, this new style in eating may lead to moderation, and moderation has never hurt anybody.

In fact, you find moderation and tolerance go hand in hand . . . whether it's what you eat or what you think. . . Or whether one man prefers a moderate glass of beer when you yourself would rather have a soda.
