

Rye, Oats Rally As Trade Ends

Wheat, Barley Up Fractions by Close Of Market Session

By WILLIAM FERRIS CHICAGO, Oct. 16 (AP)—A brisk rally in rye and oats shortly before the close gave grains a strong finish today. Previously, the market had been sluggish and slightly lower. Wheat and barley also advanced toward the finish, turning early losses into minor gains.

At the close wheat was 1/8-3/4 higher, December \$1.53 1/4-1/4, May \$1.53 3/4, rye was up 3/4-1/4, December \$1.13-1.13 1/4, oats were ahead 1/4-1/2 and barley was 1/4-3/4 higher.

Milling concerns supported wheat at the outset, but most of the buying was by distillery interests. Distillers have been very active in the cash market this week, taking an estimated 4,000,000 bushels. Mills, with ceilings on their finished product, are receiving strong competition from distillers. Shipping sales out of this market today totaled 50,000 bushels.

Further proof of the relatively small amount of wheat going into the government loan was given by a Commodity Credit Corporation report that through October 9 it had made loans on 65,650,261 bushels of 1943 wheat. On the same date last year loans had been made on 228,829,563 bushels.

This indicates that there is considerable "free" wheat in the country, traders said, but reports disclose that farmers are not marketing the grain in heavy quantities. The food distribution administration announced purchase of 8,522,000 pounds of enriched wheat flour for shipment under lend-lease terms.

Market Closes Good Week

Leaders Boost Friday Gains by Fractions To More Than Point

NEW YORK, Oct. 16 (AP)—The stock market today emerged from a generally satisfactory week with leaders extending Friday's upswing by fractions to more than a point.

While scattered specialties exhibited strength from the start, dealings remained relatively sluggish. A number of issues gave ground moderately on profit taking but advances were well in the majority at the close. Reasons for the comeback, which got under way Thursday, varied. Some commitments were reinstated because of belief the list had been pretty well liquidated. Offerings earlier in the week had dried up appreciably and it was figured the market was in position to respond to really worthwhile news at home or abroad. Earnings statements and dividend hopes were buoying influences for individual issues.

The Associated Press 60-stock average today was up .1 of a point at 50.4 and on the week held at net advance of .5. Transfers for the short stretch totaled 226,810 shares compared with 225,970 last Saturday. J. I. Case, which soared 8 points yesterday on discussions of more generous priorities for farm machinery makers, gave up a point today but International Harvester was ahead 1 1/4 and Deere and Caterpillar Tractor 3/4 each.
