Whereas the United States navy is fighting the battle for freedom in the waters of the aggressors, and

Whereas, the United States navy, conjoined with its famed coordinated arm, the United States marine corps, has established a foothold upon soil held by the enemy, and is battling heroically to extend that advantage, and

Whereas, by national tradition the debt the people of the United States owe their navy is annually emphasized through the setting aside of one day to acclaim that branch of the armed forces, and whereas this city itself has made valiant contribution to the navy,

Therefore, I, I. M. Doughton, mayor of the City of Salem, do hereby proclaim Wednesday, October twenty-seventh, nineteen hundred forty-three as "Navy Day" and call upon all citizens of Salem to take part in observance of this day through the many channels open to them and to join in a salute to the United States navy and its coordinated sea power—the marine corps, coast guard, naval aviation, and the merchant marine.

Whereunto, I have set my hand this 16th day of October, nineteen hundred and forty-three.

I. M. DOUGHTON,
Mayor, City of Salem

IF YOUR DEALER IS OCCASIONALLY OUT OF CAMELS

—it's because hundreds of millions of Camel cigarettes are now being sent to men in the service. In addition to the government's own purchases for our fighting men, veterans' organizations, fraternal orders, clubs, friends and relatives everywhere are sending them Camels. Yes, Camels! After all, Camels are the favorite cigarette with men in all the services—Army, Navy, Marine Corps, and Coast Guard.*

First in the Service
—AND THE SERVICE COMES FIRST!

WHILE we have pushed Camel's production to new peaks to meet this overwhelming demand from Uncle Sam's fighting men and from the folks at home, yet if your dealer does not always have Camels for you, he asks you to be patient while he is temporarily out of them, believing you will agree that the men in the service should come first.

* Based on actual sales records, the favorite cigarette with men in the Army, the Navy, the Coast Guard, and the Marines is Camel.

LUMBER MARCHES FORWARD

—Just As Tomorrow's Citizens

—TREES FOR TOMORROW!

THEY ARE GROWING UP TOGETHER... tomorrow's citizens and eight million acres of junior forests on the West Coast. Trees are a resource that can be renewed, and lumbermen are growing trees!

Yes—the forest industries ARE making real progress in a program of protecting junior forests from fire and renewing the old forests. Logging is planned by foresters to leave at least 32 acres of seed trees on every section of harvested timberland. And the forest industries—logging, sawmill, pulp, plywood and shingle companies—operate the West Coast Tree Farms' Forest Nursery near Olympia, Washington, with production of five million seedlings a year.

Despite giant war demand for West Coast Lumber and timber products, private enterprise is acting NOW to provide trees for tomorrow's citizens.

Visit the Forest Nursery at Misqually—8 miles north of Olympia on the Pacific 99 Highway. See how lumbermen grow trees for planting on burned areas.
