# Gram the BLEACHERS

Surprise: Les Sparks has received a telegram from U of Washington asking the possibilities of a game sometime in November, and according to press reports Jimmy Phelan at St. Mary's received a carbon copy. Sorta like having the fire engine finally show up after the fire's out in Willamette's case. We don't know

whether the Huskies know that 14 of the Navycat gridders ship out this week and that footballing is definitely over, but we do know that the last heard officially from Washington was that the Coast conference members refused to sanction such a game. Could the worm have turned? Or was there a worm in the first place? Anyway, Sparks says the 'Cats would have gladly played 'em in October.

Apparently the surprising 27-7 upset win over star-studded March Field has given big and bold El Husky a new slant on January - possibilities, and now they're suddenly hot to play

They'd lose that year's eligibility which has been protected for them so far, but what's the difference? They'll lose it sooner or later anyway.

All this of course providing the suddenly rejuvenated Husky finds somebody to play-and beat. And providing the conference members okeh such game. Mustn't forget that part.

Surely is funny what the faint smell of \$100,000 can do.

#### "Hamms" Are Born

Speaking of the bowlers, the Commercial league Chuck's Tavern five have scrapped their sponsor and hatched themselves cagily the name "Hamms." Not because the way they bowl reminds you of the scalded hog, necessarily, but because they have a brain hidden within their ranks. We don't think Notre Dame, Army or Navy can be held coreless, and we look for the Army-Notre Dame game particularly to be a high-scoring affair, although by that time Notre Dame will have lost Angelo Bertelli, whose passing is quite a factor in the offense.

However, Notre Dame will have Creighton Miller and a couple of dozen other guys who

can tole or throw the ball, Army has Glenn Davis as a starter, and some 1942 regulars

who are just subs, which just goes to show you. Simmered down, we think the relative strength of the teams can be traced to the strength of the reserves, particularly in the line, and we think that Notre Dame has better and deepe line reserves than Army, and that Army bolds the same advantage over Navy. The drop in Navy's effectiveness when the second team was in there was disconcertingly noticeable

White has been doing strenuous training for several weeks and has worked with better sparring partners than Angott had, but Sammy came here in good condition and has impressed observers with his speed and sharp hitting.

Angott hasn't lost to a lightweight since 1938 and despite the negro speedster's record in this state, the champion is rated a 1-2

Tomorrow night's battle will be the first lightweight champlonship set-to in California in 30 years and while it may draw well, Promoter Joe Lynch will have to check off about \$50,-000 to break even, because of guarantees and expenses.

Dressen, long regarded as the top signal stealer in the big leagues, was one of those mentioned as a possible Dodger manager until President Branch Rickey ended speculation yes-terday by signing the Lip to a one-year contract. ### Huskies, USC May Clash in **Bowl Classic**

War Dims Hopes of Intersectional Tilt

LOS ANGELES, Oct. 26 -(IP)-The annual Rose Bowl game at Pasadena may turn out to be, under wartime stringency, a battle for the Pacific coast conference football championship between the University of Washington and Southern California's Tro-

The Trojans are undefeated, united and unscored - on. Washington is unbeaten and untied in the northern division, even though the bottom fell out of their schedule when other schools in that sector gave up

The conference provided for a play off game between the north and south winners when the athletic group was split up into two sections because of restriction on travel. Southern California has an open date for that game — de-cember 4, but the 48-hour absentee rule affecting military trainees would make it impossible for Washington to come here.

Since the Rose Bowl game would come in the Christmas vacation period, the Huskies would be available and may be the selection. The Trojans, of course, would like Notre Dame, but the Irish would be up against the travel problem.

#### Welch Favors New Bowl Plan (He Should)

Ralph "Pest" Welch expressed enthusiastic approval tonight of a Los Angeles suggestions that, unal Rose Bowl football game might be converted into a Pacific coast conference title playoff between his undefeated University of Washington eleven and the southern division winner.

"We would like very much to play the Southern California Trojans anywhere, any time," said Welch, without hesitance.

"New Year's would be the only chance because the yearend leave then gives the V-12 navy and marine boys their only chance to escape the 48-hour absence restriction. If the coast conference still is operating, I entitled to the chance at the title. Under the wartime conditions. I think a playoff in the Rose Bowl is a good idea.

"The critics may say we haven't played a representative schedule because of cancellation of the conference northern division. But we have played the strongest teams that were on our pre-season schedule. Even Whitman, with its navy trainees, was stronger than most of the northern division teams could have hoped to be.

You can say, too, that the kids would be anxious for the game.

Roland Belshaw, Washington athletic manager, said faculty athletic committee approval would be required for any such contest, and he said no "feelers" of any kind have been received nor extended regarding such a proposed Rose Bowl playoff.
Washington will finish its schedule against the Spokane Air Service command here Saturday. It has three straight victories, topped by the 27 to 7 upset of the touted March Field Flyers last Saturday.
