

Varied Stocks Edge Forward

American Distilling Holds Spotlight As High Jumper

By BERNARD S. O'HARA NEW YORK, Nov. 12-(AP)—Assorted stock favorites managed to edge forward in today's post-holiday market, but many leaders were unable to extend the two-session recovery following Monday's sharpest relapse since last April.

The Associated Press 60-stock average was off .1 of a point at 48.1. Of 857 issues traded, 404 were down, 259 up and 194 unchanged. Transfers totaled 796,367 shares, compared with 926,070 Wednesday.

American Distilling continued to hold the spotlight as a high jumper. It opened up 5 points, extended this to nearly 10, then met profit taking and ended with a net advance of 5 1/2 at 81 1/2. Schenley was up 3/4 and Distillers Corp. Seagrams 1/2.

Conspicuous losers included Douglas Aircraft, Boeing, United Aircraft, US Steel, Bethlehem, General Motors, Chrysler, Santa Fe, Southern Pacific, Sears Roebuck, Allied Chemical and Western Union.

Food Production Bungled, Hoke Tells Farm Bureau

PENDLETON, Nov. 12-(AP)—Food production was seriously hampered this year by "federal bungling," Mac Hoke, president of the Oregon farm bureau, said today.

He told the annual convention of the organization, "price controls, while admittedly necessary, have been so handled as to cause the producer to hesitate.

"A multiplicity of agencies tend to confuse and hamper price policies and orders... worst of all has been the division of authority in the entire food program."

Hoke opposed subsidies, which, he said, make "everyone pay for the benefits enjoyed by a few."

Wheat, Oats In Demand

Grain Pit Activity Confined; Gains Only Fractions

By WILLIAM FERRIS CHICAGO, Nov. 12 — (AP) — A strong demand for both wheat and oats developed in the cash trade today, giving support to the futures market. Activity in the grain pits, however, was on a small scale and gains were confined to minor fractions.

Shipping sales of wheat out of this terminal were placed at 125,000 bushels and some of the buying in futures represented the removal of hedges against these sales.

At the close wheat was 1/4-1/2 higher, December \$1.57 1/4-%, May \$1.56 1/2-%.

Turkey Raising Needs Timing

Feeding practices in finishing off flocks, careful selecting of birds when they are ready for marketing and timing of slaughtering and marketing will mean money in the pocket of the turkey raiser and better birds for the consumer, County Agent W. G. Nibler warned this week.

Noel L. Bennion, extension poultry specialist at Oregon State college, has summarized findings of growers showing that, as with other kinds of livestock, it is a mistake to market turkeys before they are in prime condition, but it is equally poor economy for the producer to hold them after they are ready for market.

While the average amount of feed required per pound of gain is 4 1/2 ounces, the amount required after six months is from 10 to 12 ounces of feed to produce a pound of gain.

Experienced turkey growers identify birds ready for market by the amount of flesh on the breast, over the back, around the tail head, on top of the neck and under the feather tracks.

Use of such supplemental feeds as soaked grains or moist mash are not advocated by Bennion if a well balanced dry ration is supplied. An important point, however, is to see that turkeys receive no grain within 24 hours of slaughtering time and no mash or pellets within 12 hours, as crops must be free of feed when dressed birds are graded.

Sorriest Husband Of Four Bad Ones Complainant Avers

KNOXVILLE, Tenn. (AP)—Domestic Relations Judge Hugh E. Webster must have figured this woman never had any matrimonial luck.

In her divorce petition she said her husband of less than a month was "all in all the sorriest of the four husbands the complainant has had and the others were all too sorry to live with."
