Peach Leaf Curl Control Now Due, W. C. Leth Warns

DALLAS - Peach leaf curl control should be considered shortly by peach growers W. C. Leth, Polk couty agent reminds orchard own-

This disease can usually be satisfactorily eliminated and prevented by an application of 6-6-60 Bordeaux mixture spray applied about the end of November or in December preferably. This spray should be home prepared if possible and applied the same day it is made. Trees should be dry for a period of several hours the day the spraying is done in order that the spray material may become well dried and so that the trees also may be thoroughly covered.

Four booklets are available through the Polk county agent's office that are helpful in this connection and which peach growers should have on hand. They are Station Circular 210, "Peach Leaf Curl;" Station Circular 393. "Sprays, Their preparation and Use;" Extension Bulletin 477, "Preparation of Bordeaux Mix-

judge passed the plea along to re-G. Underwood today, and the

"That man," the judge said the letter informed him, "says he's tried everywhere to find shoes that big, even army quartermaster depots. But the army says they can't sell to a civilian."

Unless shoes are found, the judge said, that man might be forced to stay home and a railroad be forced to find a new fireman.
