Car Stickers To Be Mailed On December 1

Windshield stickers for 1944 motor vehicle registrations will be sent out by the state department here beginning December 1, Secretary of State Robert S. Farrell, Jr., announced Friday.

Farrell urged Oregon motorists to file their applications early so that the bulk of mailing may be completed before the heavy holiday mail congestion.

The 1944 stickers may be attached to motor vehicles after December 15. The stickers will validate the 1943 license plates which are to be retained by motorists because of the metal shortage.

Letters advising motorists of the license period, starting January 1, have been sent to 400,000 car owners in Oregon.

Owners were cautioned to include their county of residence in their applications this year because the apportionment of the counties' share of the state highway fund is based on motor vehicle registration ownership in each county.

For Contribution: 350,000 Letters For Paper Drive

The secretary of state's office here has 350,000 copies of a letter from Gov. Earl Snell to Oregon motorists, and it might as well give the letters to the waste paper drive.

The Portland office of price administration asked the governor to write a letter asking the motorists to save gasoline and conserve their tires. Snell wrote the letter, and OPA had 425,000 copies printed.

After the letters were printed, OPA asked the state department to insert them with the 1944 automobile license application blanks, which the state department was sending to each mot-'ist.

The state department said it would be a good idea, except that more than 290,000 of the blanks already had been mailed.

The OPA sent the copies of Snell's letter to the state department any way, but by that time all but 75,000 of the blanks had been sent out.

So only 75,000 motorists got the Snell letter, leaving 350,000 copies on hand.
