

While harvest festivals have een common from ancient times the United States alone has a national Thanksgiving day. Among European countries special Thanksgiving days are proclaimed from time to time, often in celeestablished church, marked with all the pomp and ceremony of church and state combined, the clergy in their robes of office, the representatives of government in uniform or formal dress. At the cathedral or church "Te Deums" are sung.

Through the centuries this stately chant echoed and re-echoed:

"Te deum laudamus, to dominum confitemur;

the Father everlasting. Holy, Holy, Holy, Lord God of Sabaoth.

The glorious company of the apostles praise thee, The goodly fellowship of the prophets praise thee, The father of an infinite majesty."

While the music and the text date from the fifth century, the hands of the great masters of music have rendered versions of the "Te Deum," sometimes on royal commands. By CHARLES H. McMURTY PEARL HARBOR, TH, Nov. 24. (AP) - American invasion forces completed the conquest of the mid-Pacific Gilbert islands Tuesday with the capture of Betio island and its strategic airfield after killing most of the 4,000 de-

to shake the marines' grip on Betio. The leathernecks of the second division broke it up. Then they forged on to take control of the island before nightfall.
