SEEMS Tome By Charles, 4. Sona

They are whispering so loudly in Washington and London that out here we can almost see the lips move. By press wire and radio wireless rumors circulate of the pendency of great events. It is true, literally and figuratively,

that the "air is electric." Where there is so much smoke there must be fire. Responsible news services do not go "all-out" on mere suspicion. Enough has clearly been let fall by persons who do know to build up expectations of early and important pronouncements.

The rumors center on a probable meeting of Churchill, Roosevelt and Stalin. This has been forecast by the principals themselves, and their lack of recent appearance in their capitals gives base for the surmise, which is perhaps not even surmise to observers in Washington and London. The place probably is Cairo as reported.

The meeting of these heads of state would be an event of major significance in itself; but so definite has been the report that pronouncements of world-shaking importance are imminent, it must be that a tip-off of what is coming has been given out. We had that after the Casablanca conference; but the subsequent statements hardly lived up to the advance notices. Some important statement would have to flow from a meeting of the "big three," and it would have to take some advanced position with reference to the war or the peace. The Hull-Eden-Molotoff conference in Moscow successfully disposed of current problems. Unless subjects of vaster moment were up for consideration there would be no need for a meeting of these heads of state so

> General Montgomery's British. New Zealand and Indian troops attacked in darkness Sunday morning both from their original bridgehead near the mouth of the Sangro and opposite Archi, 13 miles inland, after a terrific artillery barrage had pulverized the Germans' hill positions, and the allied command reported "good progress" despite repeated nazi counter-attacks.

This likely was the start of an allied push along the length of the Italian front, with General Clark's American and British Fifth army due to join shortly in the delayed task of driving the enemy back on cuss. Rome. The worst of the rainy

By RICHARD G. MASSOCK

LONDON, Nov. 29-(AP)-A declaration of epochal importance involving a possible demand for Germany's surrender and signed by President Roosevelt, Prime Minister Churchill and Premier Stalin in the first meeting of the "big three" is expected-on the basis of foreign reports-to be announced perhaps within a few days.

It is speculated from reports from abroad that such a document. in terms more precise than the Atlantic charter, certainly would state the peace principles for application to Germany and her satellites.

Although there is no confirmation, reports from abroad have persisted that Generalissimo Chiang Kai-Shek has joined in the greatest conference yet on the war and peace strategy of the United Nations, but it is believed that if he did so he probably paricipated mainly in talks apart from those attended by the Russians, who are not fighting Japan.

There were reports, too, that President Eduard Benes of the Czechoslovak government-in-exile was attending this conference.

German propagandists anticipated an announcement of such a conference with an effort to minimize its importance.

"Since efforts to bring about this conference have been made for the last two years, it would not be surprising if a conference should at last take place," said DNB in a Berlin broadcast. "It is

surprising, however, that the meeting should take place so soon after the Moscow conference of foreign ministers" of Britain. Russia and the United States.

"Since the Moscow conference, the situation on the whole has not changed. Stalin, Churchill, and Roosevelt therefore can hardly discuss anything that Molotov, Eden, and Hull did not dis-

Mighty Daylight Raid Continues Allied Air Blitz

By W. W. HERCHER LONDON, Nov. 29 -(AP)-Streaking through 65-belowzero weather, US Flying Fortresses with powerful fighter escort continued the mighty new aerial offensive against Hitler's Europe today by heaping more destruction on the German port of Bremen in the second such daylight assault in four days.

In the second attack on which suffered a terrific pounding Friday by a record number of US big planes, and other European targets during the day, 13 American heavy bombers and 18 fighter planes -- 16 of the latter American --- were reported missing, while 35 nazi aircraft were shot down.

An indication that the RAF was permitting no slack in the new aerial drive came tonight when the nazi-dominated radio stations at Bremen, Friesland, Hilversum, Calais and Luxembourg faded from the air.

Deutschlandsender, the big nazi station in the Berlin area, went silent, indicati

with an early and favorable response from Germany.

My own surmise is that this build-up is part of a war of nerves against Germany. These rumors reach inside Germany, and dangle the possibility of peace before the eyes of the dazed and bomber, which raided nine instaldistraught people of bombed cit- lations and shipping near Kolaka ies, and the hungry and sorrowing relatives of men lost in the bitter defeats in Russia. With this generous advance publicity the ly to its base, have been awarded ultimatum when it comes will the silver star for "gallantry in certainly attract attention within action." Germany, and may be the leaven that will produce upheavals later

Of course the mountain of prophecy may turn out to be a molehill of fact. But if it is, many faces will be red.
