Canning of the squash-pumpof old clothes and rags for relie purposes was begun here Mon day, November 29, and will conkins will be completed in about

A new division of the squash canning this year is the removal of the seeds. In former years, the squash wanted for seeds were left in the fields to become over-ripe, but this year it has paid to can even the seed squash. Seeds from 15 truckloads of the squash are being removed. This takes about six extra people, which, the cannery officials state, would be nice in normal times, but has just been one more difficulty to surmount this year.

As a whole, the packs at the local plant have been somewhat larger this year.
