

Stocks Make Broad Advance

Remaining Deficit Wiped Out Last Of 1943 Decline

By BERNARD S. O'HARA

NEW YORK, Jan. 5.—(AP)—Another broad advance in the stock market today wiped out the remaining deficit resulting from the 3 billion dollar decline of last November.

Leaders in the industrial and rail groups recorded gains ranging from fractions to around 2 points.

Underlying factors which probably registered on sentiment included anticipation of generally favorable corporate financial statements for 1943, and hopes for a satisfactory adjustment of renegotiation differences.

The Associated Press 60-stock composite advanced .5 of a point at 50.6. On the "peace scare" selling movements in November the average fell from 50.7 at the beginning of the month to 47.1 on November 30.

Stock exchange transactions totaled 1,157,120 shares which were the largest since December 8. Tuesday's dealing were 732,280 shares.

Up 1 to 2 points were Westinghouse, Allied Chemical, Johns-Manville, US Gypsum, United Aircraft, Sears Roebuck and Howe Sound. US Steel, Bethlehem, Woolworth, Western Union, Douglas, J. C. Penney, Union Carbide and Air Reduction advanced major fractions. Rails showed narrow improvement.

Grains Reach New Highs

Wheat, Rye Strong Reaching Best Peak Since 1928

By WILLIAM FERRIS

CHICAGO, Jan. 5.—(AP)—Grains responded to the setting of ceilings of hard wheat by staging a broad advance today, all deliveries of wheat and rye reaching new seasonal highs. May and July wheat were at peaks since 1928 and September was at its best level since 1917.

The action of the market was not unexpected. Many traders had felt that, once the maximums were announced, they would act as magnets in pulling wheat quotations higher. May wheat reached the ceiling of \$1.71½, which applies for all deliveries here. Buying came from mills and houses with cash connections.

At the close wheat was 1½ to 1¾ higher, May \$1.71½-¾, oats were up 1¼, May 75½, rye was ahead 1¼ to 2½, May \$1.30½-¾, and barley was ½ to 1½ higher, May \$1.23½.

Officials of the board of trade had not received an official copy of the new ceiling regulation at the time the market closed. This created some confusion as there was doubt about the prices for various grades and classifications of cash wheat. No wheat was purchased from the country. The ceilings on futures may be changed after the official ruling is studied.
