SPECIAL TREAT—The sweet-smoked flavor of good quality bacon, done to a turn, and the goodness of whipped sweet potatoes, are combined here for a fall supper dish that's time-saving and ration point sparing. The potatoes can be topped with the cooked strips of bacon just before serving, but here's our trick: whip the potatoes and place in greased baking dish. Lay uncooked strips of bacon on top. Place in a hot oven and bake until bacon is crisped, turning once to brown evenly. This way the bacon drippings season the sweet potatoes and you'll find it saves on table spread.
