Mary isn't enough — you're needed too!

WHEN MARY JOINED the WAC, you thought it was pretty fine. You knew she was just the type to make a good soldier.

The first time she came home in uniform, remember how proud she looked, and the lively way she talked about the places she'd been, the interesting people she'd met, and her job as an Army airplane and engine mechanic? You couldn't help feeling envious.

Mary's having an important share in this war. She's doing a really vital job.

But there aren't enough "Marys" to do all the Army jobs which must be done. You are needed too.

If you're not good at mechanics, perhaps you know how to type, or you like to drive a car. Or you want to learn a new job—something you've never done before. Even if you've never had any kind of job, the Army can train you, and you'll fill a vital spot in whichever branch you choose to serve—the Army Ground Force, Army Air Force, or Army Service Forces.

We do 229 different types of Army jobs. And it takes all types of women with all kinds of abilities to do them. There is important and interesting work waiting for you to do.

Don't leave it to Mary. The need is urgent. If you're between 20 and 50 years of age, without children under 14—get full details about joining the WAC today! (Women in essential war industry must have release from the U.S. Employment Service.)
