Specialties, Rails Improve

Market Dull Generally; Leaders Low

NEW YORK, Feb. 7-(AP)- Attempts to revive the stock market met with scant success today and, while a few rails and specialties did fairly well, leaders generally finished down fractions to a point

Trends, moderately steady at the start, stumbled after midday and many early advances were wiped out at the close. Dealings, however, were sluggish throughout.

The Associated Press 60-stock average was off .4 of a point at 49.7. Transfers totalled 572,576 shares compared with 600,420 last Friday. It was the smallest aggregate for a full session since January 3.

Among scattered favorites Chicago Great Western preferred and Cudahy Packing posted new 1943-44 tops. Holding modest improvement were M-K-T preferred, Great Northern, Douglas Aircraft, Sperry, Westinghouse, General Electric and Anaconda. American Distilling "plain" was up 21/4.

Prominent on the offside were International Harvester, International Nickel, Park & Tilford, Eastman Kodak, American Can, Sears Roebuck, Texas company, Standard Oil (NJ.), Chrysler, General Motors, US Steel, Bethlehem, American Smelting and US Rub-

Wheat, Oats Close Showing Slight Losses

Rye Futures

Reversed

By WILLIAM FERRIS CHICAGO, Feb. 7-(AP)-After lumping to the lowest level in several weeks, rye futures reversed themselves late in today's session of the board of trade and advanced rapidly under covering by previous short sellers. Wheat and oats did not reflect the late strength in rye and closed or fractional losses.

Wheat closed % to % lower than last Saturday's firrish, May \$1701/4, oats were off 1/4 to 1/8, May 79%, rye was 1/4 to 3/4 higher, May \$1.29%-\$1.30, and barley was 1/8 to % lower, May \$1.21%.

Commercial activity in the market was light. There was a little buying of May wheat at the start by cash interests, apparently reflecting sales of cash wheat to distillers in the southwest. Demand from commercial feed mixers for wheat was said to be tapering off and the inactivity of millers in the wheat pit has been a big disappointment to many traders.

Flour sales during the last week' have shown a sharp expansion, according to trade reports, although they generally were short of expectations. Failure of mills to buy wheat futures against this flour business was taken by grain analysts to mean that the mills were carrying wheat unhedged because of fears of being "lockedin" the futures market if prices should rise to ceilings.
