To Save American System of Free Enterprise

1. He opposes government extravagance, hand-outs, subsidies, pump priming — with borrowed money.
2. He opposes those republicans in Congress who have criticized these things without DOING ANYTHING about it.
3. Since nearly 3-4 of all members of Congress are lawyers, he favors the election of some men from other walks of life with just common sense.
4. He wants to preserve the wise precedent set by Geo. Washington to limit holding of any federal office for more than 8 years, regardless.
