

### Business Girls To Celebrate

Business girls of the YWCA of 15 foreign countries will join today with their 60,000 fellow members in the business clubs of the American YWCA's, in a pledge to promote with increasing vigor what they call the "next item on democracy's agenda," the achievement of color equality throughout the world.

For 16 years the girls in the YWCA's of the USA have observed March 14 as the first day of a new year, during which they united to pursue a defined purpose. Gradually the idea of a national celebration spread to other countries, at whose request this year's event has been made world-wide. From China to Argentina, from Trinidad to Ceylon, from Syria to South Africa and in all nations of the British Commonwealth, the YWCA business girls will this year be working, each in her own way, for racial equality.

Letters commending the stand of the YWCA council, which will be read at the local celebration, have been received from George M. Johnson, deputy chairman, president's committee on fair employment practice, Congressman Walter W. Judd of Minnesota, and Harry Emerson Fosdick, who says in part: "Democracy's test is not the rule of the majority—even a cruel dictator can achieve that—but the treatment of minorities."

The local Business and Professional Girls' club has secured Prof. John L. Knight, counsellor on religious life, Willamette university, to be the guest speaker at their banquet tonight at the YWCA. Prof. Knight, a comparative newcomer to Salem and former resident of New Jersey, earned his degrees at Drew university, Boston university and Vanderbilt university. He will speak on the theme "Color—the Nations' Unfinished Business." Mildred Yetter, retiring club president, is general chairman for the banquet.

## Do You Eat Carrot Tops?

Of course you don't! That's why we sell carrots with the tops off—and we have discovered housewives prefer to buy them that way. Topping makes for important savings in many ways all along the line—from farmer, to shipper, to store—and to you! Then, buying them by the pound as Safeway sells all produce—you get **FULL VALUE** for your money.

We Safeway people have worked out a simpler way of harvesting carrots and other root vegetables:

We buy root vegetables with the tops off—unbunched!

Harvesting carrots with the tops off is practically a single operation: The carrots are pulled and topped right into the field crates. Naturally, this is quicker and easier. It calls for less skill; less manpower; saves the farmer on labor. And the tops, left in the field, help return humus to the soil.

Today, this more efficient food distribution system is a national asset.
