# Stoll Declares Food Packers Must Produce

The people of Oregon are under obligation to keep the canneries and other food preserving plants in full operation during the 1944 packing season, L. C. Stoll, state director of the war manpower commission, told chamber of commerce members here Monday.

Stoll referred particularly to the canneries which last year packed record stocks for the military forces and civilian consumption. He added that the state is now short 20,000 workers without reference to agriculture or canning.

Special tribute was paid by Stoll to Salem people who are working in Portland war industries.

The capital city should plan to honor those persons who put in five unpaid hours a day traveling to and from work in the Portland area, for they, too, are helping to fight and win the war, Stoll maintained.

Overconfidence in a speedy victory actually harms the war effort and slows the coming of that victory, the speaker declared. When national or military leaders are quoted in too glowing terms on the subject of "peace before the snow flies," war workers in

OREGON STATE COLLEGE, May 8—(Special)—A big "Oregon State day" in Portland is being arranged for Friday, May 12, when students will take over the victory center program at noon, and Oregon State dads, mothers, alumni and students will join in the annual evening banquet sponsored by the Dads' club.

While no special attempt is being made to get visitors from other parts of the state because of transportation difficulties, any who expect to be in Portland that day are welcome at the banquet, according to Harry Bruck, president of the Dads' club.

President A. L. Strand will be the speaker following the banquet, on the subject, "The College and the People." It will be his first major address before such a group in Portland.

# Promontory Point . . .

In Utah, was the scene of a history-making event on May 10, 1869—the realization of a great American's dream. It was Abraham Lincoln who visualized the vital need for uniting, by rail, the East with the Pacific Coast, and who authorized the building of a transcontinental railroad.

The Union Pacific struggled through lean and troubled years but, like other pioneers, it had faith in America's future. Edward H. Harriman had unbounded faith in America. His guiding genius—and the faith of the leaders "from the ranks" who followed him, gave strength and vigor to the railroad.

America always has offered unlimited opportunity and ample reward as an incentive for hard work and individual enterprise. That's why it's such a great country. It's our job to keep it that way.

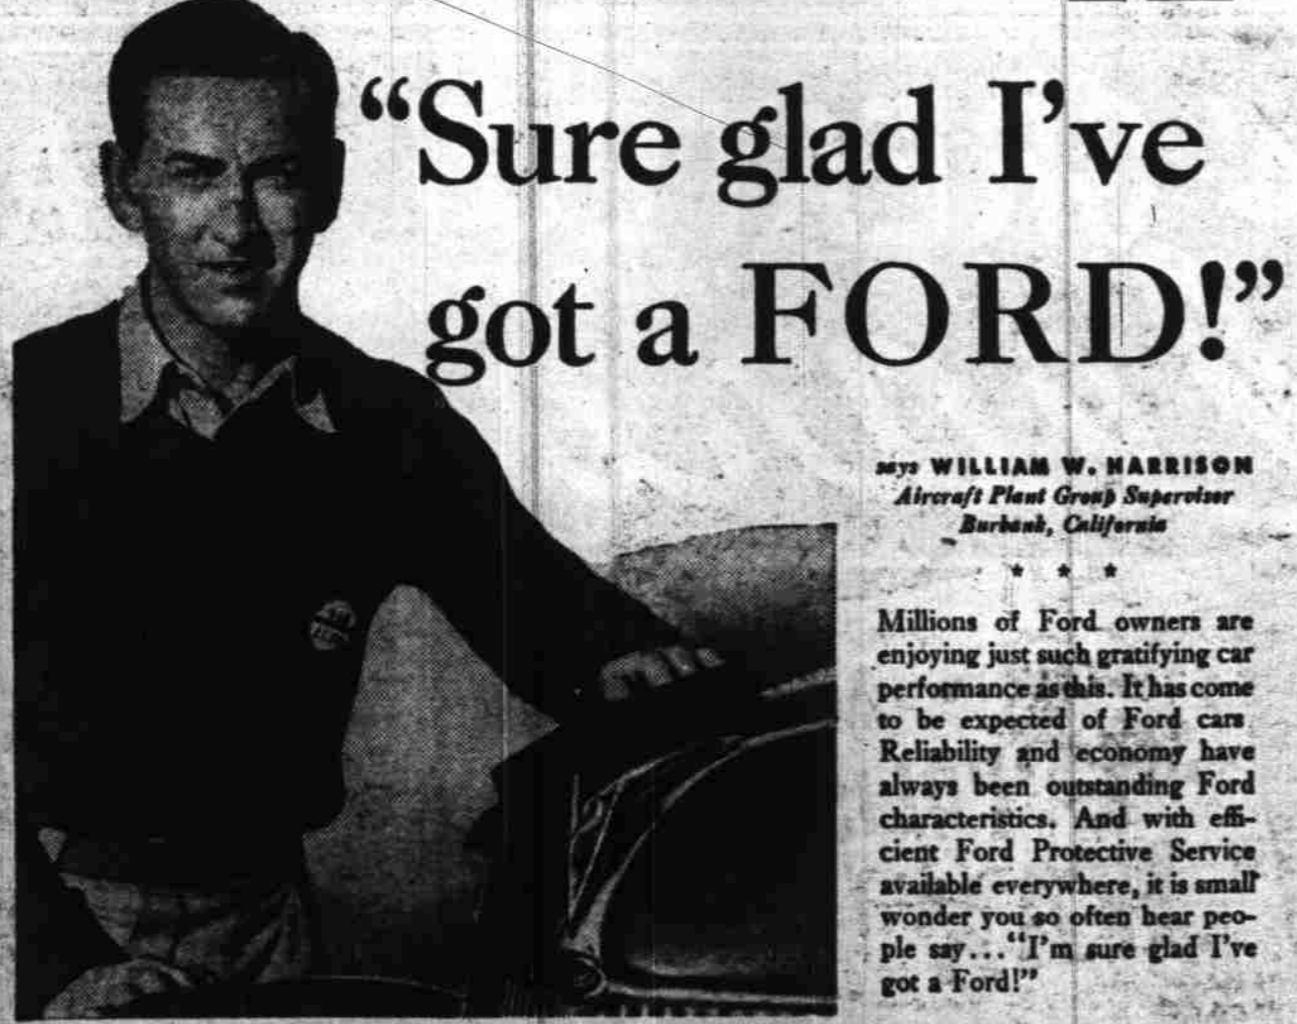

This year marks the 75th Anniversary—the Diamond Jubilee—of the driving of the Golden Spike, the completion of "The Strategic Middle Route." Union Pacific commemorates that historic occasion by continuing to exert every effort in the transportation of materials and troops so that victory and peace may soon be ours.

**"Sure glad I've got a FORD!"**

**WILLIAM W. HARRISON**  
Aircraft Plant Group Supervisor  
Burbank, California

Millions of Ford owners are enjoying just such gratifying car performance as this. It has come to be expected of Ford cars. Reliability and economy have always been outstanding Ford characteristics. And with efficient Ford Protective Service available everywhere, it is small wonder you so often hear people say... "I'm sure glad I've got a Ford!"

**"MY 1936 FORD CARRIES 5 OF US TO WORK** and has never failed me. And though it's a case of fighting traffic all the way, I still get good gas mileage. The finish is fine and the style smarter than many a newer car."

**"MY WIFE HELPS AT THE 4TH FIGHTER COMMAND** two days a week, riding to work with me first, then taking the car. It's my fifth Ford. I used to be a repairman, so I know how Fords are built. That's why I drive one."

**"A GOOD CAR DESERVES GOOD CARE,** so I see that mine gets regular greasing, oil-changing, tightening and adjusting, as well as frequent washing. Such protective service keeps a Ford, or any car, in good shape."

**NEWS NOTES**—The Rouge plant of Ford produces and uses enough high-pressure steam to heat 350,000 homes—says 25,000 gallons of fuel oil per day by burning wood tar. Ford's giant plant capacity is totally devoted to insuring the day of Victory.
