## Mrs. Reynolds Rites Friday

ALBANY — Funeral services for Mrs. Lela Davis Shedd Reynolds, 70, were held Friday, May 12, followed by burial in Riverside cemetery. Mrs. Reynolds died in the General hospital May 10, following an illness of two weeks, the result of a stroke.

Born at Shedd on May 22, 1873, Mrs. Reynolds was a daughter of Oregon pioneers. Mr. Shedd died in 1925, and on October 15, 1932, she was married to L. R. Reynolds in Salem. They also made their home in Albany.

## D Day Plans Considered

SILVERTON — Silvertown's observance of the D day will be discussed at the May 18 meeting of the Silvertown chamber of commerce, according to J. W. Jordan, president. No plans for this observance have as yet been made.

A speaker is being arranged for this meeting, and decision will also be taken as to whether a June meeting will be held or if no further regular meetings will be held until autumn. In former years, summer meetings have been dispensed with, but some members favor holding meetings this summer because of the inability to attend meetings elsewhere.

## Little Girl Comes To Stay With Aunt

SILVERTON — Beverly Jean Risher, 8, formerly of Portland, has come to make her home with her aunt and uncle, Mr. and Mrs. William Rue. Her mother died about a month ago, and her father, Joe Risher, is to be inducted in the army. He had had a deferment because of his wife's illness and death.

## Pipe Right of Way Sought

SILVERTON — Procuring of right-of-ways for the laying of the 2.2 miles of pipeline at Silvertown is now underway under the direction of the city manager, Harry C. McCrea. As soon as all right-of-ways have been arranged for, direct surveys for the line will be made and the pipe will be obtained. Arrangements for procuring the pipe was made at the May city council meeting.

The pipeline goes onto the Abjuka line, which was laid some 25 years ago, and which furnishes Silvertown's main water supply. Leakage on the line has been reported very heavy by City Water Superintendent T. L. Blust, who hopes to have the line completed before the dry season.

Pumping, which for the past year has been done by diesel power, will also be changed to electric power within the next few months, it is hoped.

This week marks the second anniversary of the founding of the Women's Army Corps, the beginning of America's acceptance of total war. However, even today, two years later, not everyone has accepted her share of the responsibility for winning this total war. By that is meant that all the women's services are short of their quotas for enlistments. The army alone can use 600,000 women in addition to the 80,000 now serving as Wacs and Air Wacs. And so the nation is about to celebrate WAC WEEK and the second birthday of the Women's Army Corps with both a tribute and a plea. This tribute is for the courageous, patriotic women who have pioneered in serving their country in time of war. They have already contributed much towards victory. The plea is for the many more women who are eligible to serve, and thus bring victory closer. Your country needs you now. It is more than a slogan to say, "A woman's place in war is the Women's Army Corps." It's Your War Too! Will you help win it?
