They come in small boxes, a meal to a box. There is coffee or powdered lemonade in each meal. They are pretty good and you can live on them a long time. ## Nearly 20,000 Workers Still Out on Strike

By the Associated Press  
Scattered strikes involving nearly 20,000 workers remained unsettled last night although production of finished airplane engines was resumed on a "very small scale" at the Lockland, Ohio plant of the Wright Aeronautical Corp., where 15,000 employees have been idle since Monday.  
Announcement by the company that a "few" engines were being turned out came on the heels of a company order that strikers must return to their jobs by today or be discharged. Wright officials issued the ultimatum Wednesday night, shortly after the war labor board had ordered employees to return to work.

The board refused to consider for six months a question of maintenance of membership in local 477 of the AFL United Automobile Workers at the Revere Copper and Brass Co., Chicago, and for four months in local 1302 of the CIO United Steel Workers of America at the Evinrude Motor Co., Milwaukee.  
In addition, the board postponed for three weeks any consideration whatsoever of the pending case of local 164 of the CIO United Automobile, Aircraft and Agricultural Implement Workers at the Auburn Manufacturing Co., Auburn, Ind.  
At Canton, Ohio, strikers at the Timken Roller Bearing Co., plant voted to return to their jobs, ending a walkout which began five days ago and involved 1,400 employees.  
A six-day old strike of more than 500 workers at the Passaic, N.J., plant of the Botany Worsted Mills ended as the full day shift reported back to work.
