New Danger Faces Oregon Hop Growers

PORTLAND, July 7—(AP)—With hops in good condition and downy mildew well under control, a new danger is confronting Oregon hop growers, the war food administration (WFA) said today.

The WFA reported growers unable to obtain nicotine sulphate, used to control lice infestation. "With lice beginning to appear and need for dusting immediate," the WFA said, "the shortage is extremely serious."

The WFA's hop survey reported light trading throughout the country, with most of the 1944 crop already under contract and only negligible amounts of the 1943 crop still unsold. Markets, however, remained firm.

Oregon growers limited dealings to extensions of one-year contracts, the WFA said. Prevailing price on straight 5-year contracts was 90 cents a pound for 1944, 80 cents 1945, 70 cents 1946, 60 cents 1947, and 50 cents 1948.

These are minimum guaranteed for seeded hops in case ceilings are no longer in effect.

Quotations at Portland

Portland Produce

PORTLAND, Ore., July 7 —(AP)— Butterfat: First quality, maximum of .6 of 1 per cent acidity, delivered in Portland 52-52½c; premium quality, maximum of .35 of 1 per cent acidity 53-53½c; valley routes and country points 2c less than first or .50-50½c.

Wheat Futures Advance Well

CHICAGO, July 7—(AP)—General buying and a wave of short covering hit the wheat market today and futures prices advanced throughout the session to close as much as 3¼ cents higher than yesterday's final quotations. The trade in other grains followed the trend of wheat.

Rumors of various government plans to carry out the provision of the price control extension bill directing the administration to take "all lawful action" to assure farmers parity prices were responsiblt for the upturn at a time when both crop and harvest reports are extremely bearish.

Wheat closed 2⅜ to 3¼ cents higher than yesterday's finish, July $1.60. Oats were up ⅞ to 1⅜, July 78. Rye was 2½ to 2⅞ higher, July $1.12¾. Barley was ⅛ to 2¼ higher, July $1.25½.

Rule Changed For Engines

Endorsement by the state AAA committee is now required by the war production board on applications for preference rating on an internal combustion engine over 2 hp., and an electric motor over 1 hp., for use in an irrigation plant.

The new procedure places rationing of well casings and pumping machinery on a state rather than a county basis. Applicants are required to state on their applications the basic information needed to judge the feasibility and desirability of the enterprise. Application will be reviewed by county farm rationing committees which will make recommendations to state committees and issue the necessary purchase certificates for approved enterprises.

Stock Market Looks Better

NEW YORK, July 7 – (AP) – The stock market looked considerably better today, although obviously still suffering slightly from technical frustration.

While many leaders found the going a bit rough from the start, investment demand revived for selected oils, rails, utilities, motors, aircrafts and specialties. Steels got a leg up in the final hour. Although minus marks were plentiful at the close, gains of fractions to 2 or more points were well distributed with a number of favorites at 7-year peaks.

Local Kiwanis Gets Publicity

In picture and news story, the Salem Kiwanis club this month is publicized by the Kiwanis magazine, international publication. The picture, that of Toastmaster Harry V. Collins presenting to ladies' night entertainers war stamps as tokens of the club's appreciation, appears in the column entitled "Kiwanis in Action." A brief article in the "Short Shots" column tells how four members of the Kiwanis club in succession have served the city as mayor. Douglas McKay, V. E. Kuhn, W. W. Chadwick and I. M. Doughton presented the achievements of their respective administrations at a club luncheon recently.
