

Demure Miss Joyce Reynolds of Hollywood by way of Texas is at present touring the eastern states participating in war bond rallies and getting her first view of the wonders of the civilized Atlantic seaboard communities. Born in Texas, Joyce attended the University of California at Los Angeles, where she was "discovered" by a talent scout. (International)

**RUGGED HILLS OF GUAM** proved no hindrance to evacuation of American wounded as shown in this photo of a casualty being transported on a stretcher trolley. Engineers bridged this gully with a cable when the terrain interfered with the work of litterbearers. The wounded marine in the stretcher will be transferred to a jeep ambulance at the end of the line and then removed to a hospital ship. Official US marine corps photo. (International)

President Roosevelt in Hawaii for conferences with Pacific war leaders, studies a huge wall map as Adm. Chester W. Nimitz, USN, Pacific fleet commander, points to Tokyo. With the president are Gen. Douglas MacArthur (left), Southwest Pacific commander, and Adm. William D. Leahy, chief of staff to the president (second from right). (AP Wirephoto from US signal corps)

**THEY'RE IN THE NIGHT**—Members of the first Brazilian Expeditionary forces to arrive in Italy stand on a Naples dock. In background is U. S. transport in which they sailed.

**PRINCESS DOES DISHES**—Princess Elizabeth of England (right) helps wash the dishes after an outdoor meal which she helped cook during a visit to a Girl Guides camp in England.

## Record Peach Crop Forecast For Oregon

WASHINGTON, Aug. 11—(AP)—The Agriculture department estimated the 1944 peach crop today at 71-816,000 bushels, three per cent above July 1 estimate, 69 per cent larger than last year's short crop, and 24 per cent above the 10 year (1933-42) average.

The ten southern states, principal source of peaches in the east during July, produced larger crops than indicated on July 1. The August 1 estimate for that area was 17,045,000 bushels compared with July forecasts of 15,389,000.

In the west, record crops were forecast in Colorado, Washington and Oregon. California prospects were the same as July 1 indications, 30,336,000 bushels.

August 1 conditions indicated a 1944 pear crop of 28,410,000 bushels, the department said, 16 per cent above last year but one per cent below the ten year average.

Grap production prospects continued favorable during July, the report said, with a crop of 2,722,150 tons indicated compared with 2,972,900 produced last year. The total California crop was estimated at 2,492,000 tons. New York's indicated crop of 61,800 tons is 57 per cent larger than last year.

Production of California plums was estimated at 73,000 tons against 76,000 last year; California dried prunes 163,000 tons against 196,000 last year, and Washington, Oregon and Idaho prunes for all purposes, 101,000 tons fresh basis against 135,500 tons last year.

**Lamb Sales Not Slowed Says Agent**

PORTLAND, Aug. 11—(AP)—Charges that rationing of lamb has bogged down sales and jammed the market were denied today by T. T. Swenson, North Portland livestock market government reporter.

Swenson reported two sales of good-choice lambs at \$12.75 and \$13 a hundredweight—the highest August price paid at the market since 1919. The average price ranged around \$12.

Buyers have cleaned up all lambs received on the market, Swenson said, and in some cases the number of animals shipped in by growers was not sufficient to fill all orders.

Receipts at the market during the first four days this week totaled 3800 lambs, Swenson said—more than 500 more than during the same week a year ago, and higher than the total receipts last week.

## Lamb Sales Not Slowed Says Agent

**Hop Harvest To Be Large**

PORTLAND, Aug. 11—(AP)—Oregon's hop harvest should reach the officially predicted 87,000 bales this summer if favorable weather prevails during the next few weeks, the war food administration (WFA) said today.

The crop, which suffered under the recent hot stretch, improved during the cool nights and occasional showers which marked last week, the WFA said.

Little activity was reported on the market, with almost all the state's 1944 hops already under contract.

## Hop Harvest To Be Large

**Tire Committee Asks To Inspect GI Trucks**

PORTLAND, Ore., Aug. 11—(AP)—The newly organized Oregon emergency truck tire committee asked the army today for permission to inspect tires on "idle trucks and in stockpiles at ordnance depots in the northwest."

Claiming that trucks were lying unused in northwest depots, the committee telegraphed Lt. Gen. Brehon Somervell, chief of army service forces, that they wanted to determine whether some tires might be released to ease the shortage in this area.

**Stocks and Bonds**

NEW YORK, Aug. 11—(AP)—Pivotal rails and industrials resumed the leadership in today's stock market, although the majority failed to follow through on early gains of fractions to more than a point.

Recently sprinting low-priced motors and utilities were unable, generally, to extend their bulge.

The Associated Press average of 60 stocks was up 3.3 of a point at 34.6, its third successive comeback. The market was a bit broader, 663 issues appearing. Of these, 548 were up, 121 down and 194 unchanged. Transfers of 944,330 shares compared with 1,015,730 the day before.

American Water Works was one of the few utilities to do anything. It rose 1/8 to 10, a peak for 1944.
