

### Workers Shut Down Mines By Resigning

WASHINGTON, Sept. 7—(AP)—The solid fuels administration said tonight 18 supervisory employes have shut down a government-seized bituminous coal mine at McIntyre, Pa., by the simple expedient of resigning their jobs.

It is against the law to strike against the government. Whether the government will consider the resignations a violation of the Smith-Connally anti-strike act was not known tonight. The situation was believed unprecedented in coal labor disputes.

Undersecretary of the interior Abe Fortas, acting in the absence of Secretary Ickes, telegraphed John McAlpine, president of the United Clerical, Technical and Supervisory employes, a newly-organized group within the United Mine Workers, and asked him to request the men to return to work tomorrow.

Fortas asked McAlpine for an immediate reply. He also sent telegrams to the men urging them back to their jobs.

The mine is the "Kent No. 1 and No. 2" (one large combined operation), belonging to the Rochester and Pittsburgh Coal company. It was among those taken over a week ago in order to end a strike of the supervisory employes who had walked out after being refused recognition by the mine operators.

The men returned to work Monday. McAlpine came to Washington the same day and asked Secretary Ickes for recognition as a bargaining union. This was refused. Today's resignations followed in the Rochester and Pittsburgh mine.

### Fire Destroys Drain Saw Mill

DRAIN, Sept. 7—(AP)—The Jim Whipple saw mill was a total loss last night from a blaze which also threatened the town's residences.

Civilians and fire crews battled to save homes from fire that started in a slash burner and raced out of control under the low humidity. Estimated loss from the mill was \$75,000, according to co-owner E. Whipple. It was not covered by insurance.

Conscientious objectors from Elkton, the Western Lane fire patrol, and fire crews from Eagle Creek and Hard Scrabble helped Drain's volunteer firemen. Nearly 100 men were on the fire line at the fire's peak.

The mill often employed 75 men and held one of the largest payrolls in this area.

### Servicemen Visit With Relatives

ZENA, Sept. 7—Mr. and Mrs. Roy E. Barker had as their guests recently her brother and sister-in-law, Mr. and Mrs. Fred Gould of Vancouver who were accompanied by their two sons, Chief Yeoman Merrill Gould and Chief Radioman Krader Gould.

Chief Yeoman Gould has been overseas for 33 months and has a 90 day leave before reassignment. Chief Radioman Gould is at home on an eight day leave from New London, Conn., where he has been studying radar.

He has been on submarine duty for several years previously, and will be reassigned to a new submarine soon. His wife and two year old son, Reed, live at Vancouver.

### Jersey Entries Win Honors

GRAND ISLAND—Ronald Finnicum won first on his senior yearling Jersey heifer at the 4-H fair at McMinnville September 1. And he won third place in showmanship. Delores Finnicum won fourth for her three-year-old Jersey cow. Leroy Palmer won fifth on a six month Jersey calf.

Lola Mae Palmer took fourth place with her 12 month old Jersey heifer. These 4-H club members are of the Grand Island calf club.

### Marine Takes Short Cut Through USO Window

EUGENE, Sept. 7—(AP)—A marine took the USO club's "welcome" sign to heart last night.

Sgt. Leonard W. Rule was so eager to get inside that his car leaped the curb, broke off a traffic sign, and plowed into the center of the room through the plate glass windows.

### Nine Polio Cases In Multnomah County

PORTLAND, Sept. 7—(AP)—Multnomah county claimed nine of the 11 new infantile paralysis cases recorded last week by the state board of health. The other two were in Clackamas and Douglas counties.

In the corresponding week in 1943 the record was higher—16 cases. In July the disease caused three deaths in Oregon.

### Adml. R. Wood Assigned to North Pacific

AN ALEUTIAN BASE, Alaska, Sept. 7—(AP)—The assignment of Rear Adml. Ralph Wood, veteran of air war command in the southwest Pacific, to the north Pacific as commandant of the 17th naval district was announced here today.

The new commandant, who succeeds Rear Adml. F.E.M. Whiting, served as commander of aircraft with the southwest Pacific task force during the crucial period in which the Japanese threat to Australia was beaten back. He transferred to the north Pacific post from command of fleet air, Seattle after a year's service there.

The head of the 17th district, which was established early this year with Admiral Whiting as the first commandant, ranks as second in command to Vice Admiral Frank Jack Fletcher, commander of the north Pacific theater.

### Kaiser Buys Patent for New Invention

RICHMOND, Calif., Sept. 7—(AP)—Henry J. Kaiser, the famed builder of ships, who this week piloted a newly-designed helicopter after only five minutes of instruction, said today he had signed a contract with 19-year-old Stanley Hiller, jr., the inventor.

Clay Bedford, manager of Kaiser's Richmond shipyards and friend of the young Berkeley inventor, has become his sponsor in further research and manufacture in a Berkeley factory to be operated by Kaiser Cargo, Inc.

A Kaiser company statement said "there is confident hope that this move may add another arm to the air forces \* \* \* particularly in the field of rescue and air ambulance."

Kaiser Cargo, Inc., announced it had purchased the patents of the new plane. It differs from conventional helicopters in that there is no tail propeller, the torque effect being overcome by two contra-rotating, two-blade rotors. Hiller is a son of a pioneer Pacific flier and steamship company president.

### Special Crops Gain in Favor

CORVALLIS, Sept. 7—(AP)—Oregon farmers are putting more land into miscellaneous specialty crops, which now account for about 6 percent of total cash farm income—twice that of a decade ago.

The most remunerative specialty crop, hops, has doubled in value since 1939, although production in pounds is smaller. Oregon state college reported. In 1939 hop sales were \$4,198,000, compared with preliminary estimates of \$8,959,000 as the 1943 value.

Peppermint oil is now \$6.60 a pound, while in 1939 the average price was \$1.85. Last year's acreage was 132,000.

### San Diegans Always Ready

SAN DIEGO, Calif., Sept. 7—(AP)—For the second time in recent weeks, some San Diegans today prematurely celebrated the end of the European war.

A siren, sounding a three-alarm fire, prompted cheering and other forms of demonstration by people in the downtown area. Newspaper offices soon received more telephone calls than switchboards could accommodate.

Two weeks ago, a siren installed in a department store to signal the end of the war, sounded accidentally and clerks, believing Germany had surrendered, closed the store. Some of them went home.

### Lamb Stamp Comes Late

WASHINGTON, Sept. 7—(AP)—An extra ration stamp for purchase of lamb in the Pacific northwest was described today by Sen. Thomas (R-Idaho) as having come too late to avert losses of hundreds of thousands of dollars to the western sheep industry.

He said in a statement that there never was any need for rationing lamb, that the industry had warned OPA well in advance that storage space would be glutted as soon as the lamb marketing season opened and OPA was advised to let lamb move freely to consumers.

"With its usual lack of foresight," he said, "the OPA delayed action and then, by issuing

### Swegle Hopyard Starts Picking

SWEGLA, Sept. 7—The picking of hops in this district's only hop yard will begin Friday morning.

Mr. and Mrs. Ralph De Sart rented their yard to Mr. John Hanna from near Silverton this year, and he will supervise the picking.

Mr. Hanna plans on running a truck down the Silverton road into Salem to the employment office and out Garden road to the yard which is only a short distance north of Garden road. Late hops have been grown on this ranch for many years.

### Grain Harvest Nearly Over In Oregon

PORTLAND, Sept. 7—(AP)—Grain harvesting is nearly completed in Oregon, with only a small amount of grain still left, mostly in higher areas, the weather bureau reported today.

Although unirrigated plantings are suffering from drought, corn is maturing well, according to the weekly crop-weather survey. Actual seeding of wheat was held back by the dry soil, but growers began preparing the land for fall planting.

Pastures without irrigation were still dry, since last week saw only light rains. Some livestock had to be fed in barns, and stubble and

alfalfa fields were used for pasture.

Hop picking is well advanced, in spite of a small delay from rain, the weather bureau said. Harvesting of late alfalfa and vegetable seed crops continued. Sugar beets have reached the near-maturity stage, and processing of fruits and vegetables is underway.

A heavy peach and Bartlett pear crop was still being harvested, and picking of early apples drew to an end. Fall lettuce thinning has started.

A good yield of walnuts and filberts was predicted by the bureau. Grapes began ripening, and fresh prunes were still moving to market.

### Large Hogs Marketed

UNIONVALE — Eight Hampshire hogs weighing an average of 205 pounds each were marketed Monday by Clark Noble.

### Stocks Break Sudden Slump

NEW YORK, Sept. 7—(AP)—Financial markets got a selective foothold on recovery today as commitments were reinstated here and there with the idea Wednesday's sharpest relapse in nearly a year had been overcome notwithstanding persistent fears of post-war reconversion difficulties.

Extreme declines running to 2 or more points were substantially reduced in most cases and advances of a point or more appeared in many categories at the close.

The Associated Press 60-stock average was off .3 of a point at 53.3. Of 966 issues registering, 504 were lower, 374 higher and 188 unchanged. Transfers of 1,477, 170 shares compared with 1,476, 260 the day before and were the largest since July 17.

### Stern Back in Oregon

PORTLAND, Sept. 7—(AP)—Ending six weeks' work with the national OPA in Washington planning a campaign against the black market, Sol Stern, OPA district enforcement official, returned here today.

### Macy Resigns Yamhill Board

Resignation of Glen S. Macy, McMinnville, as chairman of the Yamhill county public welfare commission, and appointment of Guy Shunway as his successor, was announced by Governor Earl Seal here Thursday.

The new chairman is a Yamhill county farmer and has been active in community service and the Grange. Macy served as chairman of the commission since 1933.

# PEACHES for CANNING!

yes, ma'am, this is the **BIG WEEK for PEACHES**

Hurry! Get your canning peaches now! The pick of the Northwest's finest orchards are on display at your Safeway—and they're priced L-O-W! Come select yours today!

## SAFEWAY

You won't find better fruit or lower prices anywhere than at your nearest Safeway Store. Make your selections today!

<b>Tomatoes</b> Per lb. 6c...16-lb. flat	<b>89c</b>
<b>Potatoes</b> No. 1's, Quality.....Lb.	<b>4c</b>
<b>Peppers</b> Medium Size.....Lb.	<b>10c</b>
