World-Wide News Trading Gets Backing

WASHINGTON, Sept. 7—(AP)—Congress was asked today to declare itself in favor of international agreements guaranteeing world-wide freedom of news exchange, and enthusiastic support came quickly from both democrats and republicans.

Rep. Fulbright (D-Ark.) proposed a resolution which would put the legislators on record as "believing that the unhindered interchange of independent news would promote a better understanding among nations and thus help prevent future wars."

Chairman Connally (D-Tex.) of the senate foreign relations committee said that he had in mind the introduction in the senate of a similar resolution.

"I helped secure from the democratic platform committee the plank favoring the unhindered interchange of news and the freedom of the press," Connally said. "I naturally am strong for the principles of such a declaration."

Senator Taft (R-Ohio) asserted he was "for the idea" but that he was not certain the resolution was entirely adequate. He said he had other language in mind.

Endorsing the purpose of the Fulbright proposal, Senator Aiken (R-Vt.) declared that "The more the people of the various nations know about the business of their own governments the more likely we are to have a continued peace."

LA Temperature 103

LOS ANGELES, Sept. 7—(AP)—The maximum temperature here this afternoon was 103 degrees, hottest since last September 22, when the top was 107.
