Bullish Tinge In Grain Trade

CHICAGO, Sept. 19 -(AP)- A broad short covering movement gave a bullish tinge to the grain futures market today, with wheat, corn and barley advancing moderately and oats and rye relatively

With September commitments to be met by Friday, the shorts were particularly active in the wheat and barley pits where an easier tone developed, however, after these interests and flour mills were satisfied.

At the close wheat was % to 11/4 higher September \$1.591/2; corn was 1/4 to 1/8 higher, December \$1.09%; oats were ¼ higher to 1/4 lower, September 643/4; rye was ¼ higher to % lower, September 96; barley was 1/4 to 1% higher, September \$1.071/8.

Stocks Rally All Along Line

NEW YORK, Sept. 19 -(AP)-Stocks rallied all along the line in today's market with leaders retrieving fractions to a point or so of recent losses.

Steels, motors, rubbers and rails were prominent on the swing. Aircrafts were under water as the result of profit cashing most of the day but steadied at the last and emerged with modest net improvement.

The Associated Press 60-stock average was up .4 of a point at 54. It was a broader market, 828 is-

By Quinn Hall Tobin Says FDR Program Aided War

NEW YORK, Sept. 19-(AP)-Daniel J. Tobin, president of the Teamsters' union and chairman of the labor division of the democratic national committee, declared today that the Roosevelt administration labor machinery had "successfully helped to bring us to where we are today with our en emies on the ropes."

Tobin made the statement at a press conference at democratic headquarters in commenting on Thomas E. Dewey's speech at Seattle last night. Dewey blamed the administration policy for labor troubles during wartime.

"I might also ask Mr. Dewey in the interest of the nation and the civilized world what plan he would put into effect to substitute for the present machinery," said Tobin, who is president of the Insters, Chauffeurs, Warehousemen and Helpers' union (AFL).

Tobin said in a formal statement that Dewey "did not dare to make and about 200 pickers come in an onslaught on the Wagner act cars and busses from nearby which, for the first time in our history, recognized the right of employes to organize and which section No. 2 and most of his Pacific war and that is to kill all vetoed the nefarious company un- pickers come back each year to the Japs," Vice Admiral Randall ions which were simply a method pick the entire season.
