Profit Taking Drops Grains

CHICAGO, Oct. 2-(AP) - Profit taking was a more potent market influence than government support today and all grain futures save December wheat and July barley suffered losses ranging from minor fractions to nearly two

Milling interests bought wheat throughout the session, presumably covering flour business booked under a new subsidy schedule providing rates from four to 101/2 cents higher than those paid during September.

Subsidies to millers are based on the differential between wheat market prices and flour ceilings. Trade sources reported that some millers had claimed the new subsidies do not cover the recent advance in wheat prices.

The strength of December wheat after early weakness was attributed to the new subsidies and to announcement by the commodity credit corporation that it had upped by one cent the top price it will pay producers for wheat in store at St. Louis and east of the Mississippi river.

May wheat closed only slightly below Saturday's final figure and went to a wider premium over the July delivery. There was some buying of December against sales of May, principally by cash interests, and the northwest was credited with buying here against sales in Minneapolis.

At the close wheat was % high-

By Quinn Hall Stocks Show **Mixed Trends**

NEW YORK, Oct. 2-(AP)-Sentiment and trends were a bit mixed today as the stock market started the new month and, while aircrafts, steels, utilities and assorted industrials did fairly well, many leaders failed to extend last week's advance.

Buying on the idea of a longer war tapered to a considerable measure as the allies swept toward the Rhine. Aviations again were aided by prospects of big peacetime passenger transport orders as well as the outlook for continued, use of fighting planes in the Far East. Motors managed to keep their balance notwithstanding the WPB refusal of priorities for machine tools as a start to reconversion. Dividends, earnings and business shifts bolstered individual issues. A sizeable drop in August net income from a year ago chilled the rails. Election hopes drew attentio to power and light company securities.

in the forenoon but slowdowns were frequent after midday and Organized best gains running to a point or more were whittled down in the majority of instances at the close.

The Associated Press 60-stock were up and 437 down or unchanged. Transfers totalled 815,-940 shares compared 746,550 Friday and were the largest since Sept. 13.

At peaks for 1944 were Boeing, Douglas Aircraft, Consolidated Vultee, Montgomery Ward and American Locomotive.

Oregon's 1943 Mineral Production 12 Million

WASHINGTON, Oct. 2-(AP)-The bureau of mines has evaluated Oregon's 1943 mineral production at \$12,310,000-\$10,964,000 in nonmetallic minerals and \$1,346,000 in metallics.

Oregon was "near the top' among all states in production of mercury, antimony ore, chromite and diatomite, the bureau said. Diatomite, a chalk-like substance, is used in filters, insulators, and abrasives. The state was second in mercury and diatomite output, and
