

Trouble Due If Japs Come Back to Coast

AUBURN, Wash., Oct. 13-(AP)—Trouble was predicted tonight by Comdr. Melvin H. McCoy, navy aviator of the Bataan "march of death" from a Japanese prison camp, if Japanese are permitted to resettle in Pacific coast areas from which they were evacuated in 1942.

McCoy was the principal speaker at the meeting of the "Remember Pearl Harbor league" which was formed recently to prevent the return of Japanese to the White and Puyallup river valleys of western Washington.

"Personally I am not against the Japanese-American having the opportunity to enjoy the American way of life—but I would like to see him enjoy it somewhere else," McCoy told the meeting, which was switched from the fraternity hall to the high school auditorium to handle the crowd. "He would not necessarily have to be sent to Japan—Hawaii or some of the islands we take from Japan would be all right."

The speaker observed that trouble would likely arise if veterans returned from the Pacific to find their homes still surrounded by Japanese.

"I believe it would be better if the Japanese remained away from these communities," he said. "If they return they will undoubtedly be discriminated against and people in that category are not apt to be good loyal citizens."

Greetings to the Remember Pearl Harbor league from the American League of California, an organization with a similar purpose, were read.

Yank Heavies Blast Plants In Satellites

LONDON, Oct. 13-(AP)—Between 750 and 1000 long-range 15th air force heavy bombers and escorts from Italy today smashed Nazi war plants in Vienna and western Hungary, while hundreds of fighter-bombers on the western front paced the bitter ground fighting with punishing attacks on Aachen and German garrisons in western Holland.

Aachen is reported already about 85 per cent destroyed. Dismal weather grounded British-based heavies, but the American 9th and Royal Air Force 2nd tactical air forces shuttled from French air fields to the front lines.

The score still remained to be tallied tonight, but a recapitulation of recent activity on the air front demonstrated the ever-increasing importance of the air arm for tactical operations.

The RAF bomber command reported complete destruction of Kleva and Emmerich, German frontier towns in the Nijmegen area, attacked Oct. 8 by Lancasters and Halifaxes.

Reds Capture Finnish Port

LONDON, Oct. 13-(AP)—Soviet troops have occupied the port of Linnahama in the Petsamo area of northern Finland, the German International information bureau said today.

Across from this northern terminus of the Arctic highway and near the Swedish border, a Helsinki communique reported, Finnish troops were attacking German lines.

In the Kemi river area the Finns reached the Koivy river, and in the Tornea river valley had passed Korpiakylä, the communique said.

DNB, official German news agency, reported that large scale fighting of German Alpine troops west of Murmansk continued against strong Soviet formations.

Strikes Lose Little Time

WASHINGTON, Oct. 13-(AP)—The labor press today gave prominence to an army circular which said that while strikes or work stoppages have cost 23 million man days of labor since Pearl Harbor, the loss represents "less than one-tenth of one per cent of the total labor time available."

Most of organized labor and management have "kept faith with their work pledge," said the circular, which was issued August 21 as part of a series used for keeping soldiers posted on a variety of subjects. Army circulars and regulations are signed by the chief of staff, Gen. George C. Marshall.

ON the HOME FRONT By ISABEL CHILDS

Boys, small and large, but mostly pretty young, lined the little pathway through the crowd by which Governor Bricker reached the statehouse steps here Thursday.

Following the address, one lad walked off under the trees to the west of the capitol and started yodeling. "Aw, 'twon't do you no good to practice," scornfully remarked another. "By the time you get a voice like his, radio'll be an old thing and there'll be television and you won't have no chance at an office!"

FDR May Act On Petrillo's WLB Defiance

WASHINGTON, Oct. 13-(AP)—President Roosevelt said today that if he could find a legal way he intended to do something about the AFL Musicians union's defiance of the war labor board.

The president was asked at his news conference whether he planned any action now that James C. Petrillo, the musicians' head, had rejected his personal request for compliance with the WLB's order that the union lift its ban on making recordings for two companies.

With a wry smile, the president replied that people wrote that he was a dictator one day and wrote the next day that he should do something about Petrillo.

He would like to do something, Mr. Roosevelt added, but it was a great question whether he could legally. He said he expected to go into that question in the next few days.

"What law might apply?" a reporter asked.

Oh, there were about 20 that might have a bearing, the president replied, repeating that he had not had a chance to go into that matter.

Smuggling Plot Nipped in Bud

VANCOUVER, B.C., Oct. 13-(CP)—Fisheries officials revealed today that an alleged smuggling plot to ship contraband White Spring salmon from Vancouver into the United States was nipped in the bud last night when a Canadian fisheries officer seized 600 pounds of salmon aboard a truck near Douglas, Wash.

Officials said they believed the load was a "trial run," the forerunner of bigger shipments that were to be smuggled into the U.S. A Canadian government embargo exists on White Spring salmon preventing its shipment into the U.S., where demand for fish is heavy and prices paid are considerably higher than in Canada.

Fisheries officials here will confer with the federal fisheries department on the prosecution of the shippers of the 600 pounds.

Kirkenes and shipping in the Barents and other northern seas, said a Russian communique broadcast early today by the Moscow radio.

Wallace Says Industry Had To Be Bossed

CLEVELAND, Oct. 13-(AP)—Vice President Henry A. Wallace asserted tonight it was necessary "to take industry by the scruff of the neck" to place it into the war effort.

The vice president, at a public music hall political rally sponsored by the independent citizens' committee for Roosevelt, decried from his prepared speech to urge the defeat of US Senator Robert A. Taft, Ohio republican.

He referred to a postwar program which Taft outlined in a campaign talk last night. Taft advocated with the return of peace immediate removal of wartime controls of prices, wages and priorities, with certain exceptions.

Gov. Thomas E. Dewey, republican presidential nominee, also recommends "the green light" for industry, said Wallace.

"Those of us close to the war production board know better," Wallace continued. "Given the green light, industry would have gone on making automobiles and washing machines. You had to take industry by the scruff of the neck and throw them into the war. Of course, when they were thrown in, they really did swim with the excellent cooperation of labor."

In his prepared talk, Wallace said Dewey "is likely to become even more confused if he continues half the time to talk liberalism and half the time to express the thoughts of the real power in the national republican party."

Kerr Speaks For Roosevelt

JOLIET, Ill., Oct. 13-(AP)—Gov. Robert S. Kerr of Oklahoma declared tonight "there was never in the history of America a worse time for a change, nor less inducement offered for it."

The keynote of the Democratic National convention, in an address prepared for a campaign audience and made available to the press by party headquarters in Chicago, stated:

"... Mr. Dewey, with the regularity of an automaton and the senseless jibbering of a parrot, repeats over and over: 'That is why it is time for a change.' I say to you there was never in the history of America a worse time for a change, nor less inducement offered for it."

Belgians Reluctant in Accepting New Money

BRUSSELS, Oct. 13-(AP)—Scores of disturbances broke out in Brussels and other Belgian cities today as Belgians lined up before public buildings in an effort to exchange their old franc notes for new government-issued ones.

From tonight the old notes of 100 francs or more are invalid. Thousands had waited until the last day of the five-day period given to exchange the old for the new.

Tanker Sails on Long Voyage

PORTLAND, Oct. 13-(AP)—Capt. Raymond H. Parker, Los Angeles, is back in this country after a 361-day voyage — which he says is one of the longest jaunts ever assigned a ship.

During the almost-year long trip the River Raisin, a Swah Island-built tanker, outran a submarine and dodged two torpedoes, while carrying high octane gasoline for American flying forces.

"Swan Island tankers," declared Parker, "are so far superior to the pre-war tankers that there is no comparison." His ship visited Australia, India, Iraq, Peru, Dutch New Guinea and many points in between during the more than 100,000-mile voyage.
