## Rye Shortage Jumps Grains

CHICAGO, Oct. 17.—(AP)—Light offerings to persistent demands for rye caused an upward surge in the grain futures market today. Wheat and feed grains followed rye, which scored a 3 cent advance at the close of the session.

The December contract in rye was at its highest point since July 22 of this year when it sold at \$1.12. Some stop loss orders were uncovered during today's advance, and shorts covered freely.

Traders held to the opinion that increased use of rye will be made by distillers of alcohol in the near future. Reports that stocks at terminal markets are decreasing steadily, combined with a lighter than anticipated movement since the harvest combined to bring the upward trend.

Wheat was strong under commission house buying, but milling interests were not aggressive in the futures market. Traders feel producers are awaiting some announcement of proposed new ceiling prices before disposing of their grain.

At the close wheat was 1/4 to 1 1/2 higher than Monday's close, December \$1.84 1/2. Corn was 1/4 to 1 1/2 higher, December \$1.14. Oats were 1/4 to 1 1/2 higher, December 83. Rye was up 2 1/2 to 3, December \$1.10 to 1 1/4. Barley was up 1/4 to 1 1/2, December \$1.04 1/2.
