

### Air Routes Via Russia Deleted In U.S. Plans

CHICAGO, Nov. 4—(AP)—The United States, which has taken the position that seats in the executive council of a proposed world air authority should be available to Russia if she wants them, has nonetheless deleted the soviet from her program for desirable air routes.

This was shown today in a comparison of the 20 routes submitted to the international civil aviation conference with the corresponding list of routes made public by the civil aeronautics board last June as a world pattern of 140,000 miles of American flag skyways.

The submission of the route pattern of the conference committee dealing with them followed the presentation of a draft convention or proposed multilateral treaty to the committee in that field in which provision was made for two seats for Russia, a representation equal to that of either the entire British empire or the United States.

Along with the removal of points in Russia from its air transport pattern deemed desirable for American operation, the revised draft showed the addition of stops in Spain, the Netherlands and Romania.

**Changes Made**  
A proposed route from New York to Madrid was extended to Barcelona, Madrid was added to a segment of a route between Lisbon and Algiers, and Seville and Barcelona were added as stops on a route segment from Natal to Paris.

# NOT WANTED IN OREGON!

## PROHIBITION AND ITS COMPANION EVILS

1. Is it fair to the Service Men while they are away? Approximately 100,000 service men and women from Oregon cannot vote on this question. Is it fair to permit prohibition to be slipped over again in 1944 as was done in 1918? You can protect them by voting 313 X NO!
2. If they get away with this, will all beverages be next? So far this "Burke Bill" pertains only to beverages over 14% alcohol by volume. But if they slip over this much—the light beverages will be NEXT! You can protect yourself by voting 313 X NO.
3. What will this "Joker" do right now? It will prohibit you from serving any guests your usual hospitality beverages in your club or at home—unless you want to risk severe penalties. Look out for this dangerous "JOKER".

**READ "THE JOKER" IN THE "BURKE BILL" PURPOSE FOR YOURSELF**  
"Purpose: Requiring all intoxicating liquor containing over 14 per cent of alcohol by volume, including distilled wine, except for sacramental purposes, to be sold exclusively by stores and agencies operated by the Oregon liquor control commission, and making it unlawful for any other person, firm or corporation to sell, offer for sale, or GIVE TO ANY PERSON any such wine or liquor, except for sacramental purposes. Violation of this act is made punishable by fine and/or imprisonment."
