## You are the shipper of this freight

Next time you see a trainload of tanks, or guns or jeeps, remember that this war material belongs to you. Your taxes and War Bonds paid for it. You are the shipper. Japan is the consignee.

To conquer Japan on her home islands, enormous quantities of war material must still be bought and paid for.

The purpose of the Sixth War Loan is to start raising the money for the final Big Push against Japan. Every American is asked to buy at least one extra \$100 bond-at the bargain price of \$75.

You buy the bonds. American industry will make the war materials. We'll roll 'em to the ports of embarkation. Our fighting men in the Pacific will do the rest.
