South American Studies Under Leth

Brazilian Learns of Extension In Famed Oregon Dairy County

DALLAS—Euclides Martins, a member of the staff of the Lavras College of Agriculture in Minas Geras, Brazil, is spending some time in Polk county learning dairying in company with extension agents and specialists in dairying.

Martins, a college professor, is receiving this training as part of an inter-continental program of the extension service and the institute of inter-American affairs to train the agricultural leaders from Latin American countries.

The object of this program is to raise the standard of living, farming and health of the people of the rural districts of the countries participating in it. The men trained in agricultural extension methods in this country will return to their homelands and teach their countrymen these methods as best adapted to their needs.

Polk Tin Can Pickup Will Be Made Today

DALLAS—Friday, December 1, is the date set for the conclusion of the tin can and paper salvage drive, according to Josiah Wills, county school superintendent. County trucks will call at the rural school in every community and gather the salvage and take it to the most convenient location for disposal.

Each teacher is asked to make an estimate of the amount collected so that some idea can be gained as to how much has been collected in the county.

Lytle Ill at Home

SCIO—Joe Lytle, who has been employed in an equipment warehouse at Camp Adair since May, is confined to his Scio home by illness.

Crown It With Cranberries!

THIS TIME of year, it seems to me there are few things so appetizing as cranberries. Just the thought of them makes me think of "good eating"—and they are so versatile! Here are a few ways to use them so that they will subtly put a crowning touch on any important dinner:

Cranberry-Orange Relish: Ever popular to serve with chicken, turkey or meat. Makes plenty and stores in refrigerator. Coarsely grind 4 cups (1 lb.) cranberries and 2 large oranges. Add 2 cups sugar and let stand 3 to 4 hours. Makes about one quart.

Ten-minute Cranberry Sauce: A fall and holiday must—luscious whole cranberries in their own rosy juice. Boil 2 cups water and 2 cups sugar together 5 minutes and add 4 cups (1 lb.) cranberries, cook slowly, without stirring, until skins pop (about 5 minutes). Skim and pour immediately into serving dish. Let stand undisturbed until cool. Makes 1 quart.

Lamb Chops with Cranberries: Just before serving broiled or pan-fried lamb chops, top with Cranberry-Orange Relish or Cranberry Jelly.

Cranberries in Salads

Jellied Relish Salad: Fold 1 cup Cranberry-Orange Relish and 3/4 cup sliced celery into 1 package dissolved lemon gelatin. Chill in individual or large mold until set. Unmold and serve with sweetened mayonnaise or salad dressing.

Cranberry Jelly-Chicken Salad: A flavorful pair. Serve chicken salad with cubes of cranberry jelly lightly mixed in just before serving.

Machinery Repair Classes Open Monday in Auburn Area

Farmers in the Auburn area will meet at Mitchell's Service station Monday, December 4, at 7:30 p. m. to consider organizing a class in the repair and construction of farm machinery and equipment with L. C. Mitchell, local mechanic, in charge. If sufficient interest is shown at this meeting, a class will be organized in cooperation with the Salem public schools and the division of vocational education, Salem.

Ten farmers will be required to enroll before the class can be organized. The length of the course will be 36 hours or more, depending upon the needs of the group. The purpose of the instruction is to train farmers how to repair and construct their own farm machinery and equipment.

More than 200 classes in farm machinery repair were conducted in Oregon last year with 3439 farmers receiving training, according to Earl R. Cooley, state supervisor of agricultural education, Salem. Machinery of all types, including trucks, tractors, harrows, plows and drag saws, was repaired in these classes and many trailers and similar equipment constructed.

No charge is made for the instruction. The farmer will furnish the machinery to work on.
