Grain Futures Suffer Break, Many Losses

CHICAGO, Dec. 14.-(AP)-Grains suffered one of the severest breaks in several weeks in the futures markets today and at the close showed losses ranging from one to more than two cents. Part of the losses were recov-

ered near the close after wheat had dropped as much as 31/4 cents below yesterday's final quotations, rye had lost as much as 2% cents and corn had slipped 1%

Wheat opened as much as two cents off under liquidation attributed to trade reports the department of agriculture was considering a two-price plan for wheat. The sell-off was persistent throughout the day and uncovered stop-loss orders. As outlined by trade sources the

two-price plan for wheat would be intended to encourage industrial use of the grain and expand foreign markets. It would guarantee farmers parity prices for that portion of the crop used for domestic food while the surplus would have to be disposed of in open, competitive markets.

Also contributing to the break in wheat was a report the Commodity Credit corporation was prepared to sell high protein and soft red winter grain from its stocks at ceiling prices plus permissible markups. Minneapolis quoted 14 per cent protein spring wheat at the ceiling today, the cash market failing to reflect the decline in futures prices.

At the close wheat was % to 2-6 lower than yesterday's finish, December \$1.69 %. Corn was off % to 14, December \$1.12%. Oats were % to % lower, December 69-1/4, rye was off 1% to 21/4, December \$1.10. Barley was % to 11/4 lower, December \$1.121/4.
